

PUBLIC-SCHOOL PAYROLL DATABASE SPOT-CHECK REPORT AND PAYROLL ANALYSIS

ABSTRACT

The report contains two (2) sections, a spot-check review showing match and mis-match of at least 75% of Public-School Personnel Database and actions for appropriate update, as well as an analysis of the CSA-MoE Employee Payroll Registry reflecting monthly changes and statistics by various indicators. The report is generated from the physical verification conducted in all Fifteen counties.

IMPLEMENTED BY: Bureau of Fiscal Affairs & Human Resource – Department of Administration

**SUPPORTED BY THE PUBLIC FINANCIAL MANAGEMENT REFORM
INSTITUTIONAL STRENGTHENING PROJECT (PFMRISP)**

Executive Summary

The Ministry of Education (MoE) benefits under the component 4 of the Public Financial Management Reform Institutional Strengthening Project (PFMRISP) that has an objective to improve service delivery in education, hence, reducing bottlenecks as a result of poor management of the Ministry of Education employee payroll registry. Notably, without adequate teaching and administrative or support staff of the education system, education delivery becomes minimal. The project aims at ensuring a continuous verification of the Ministry of Education personnel database for correctness to critical fields of personnel dataset.

Under the project, the Disbursement-Linked Indicators (DLIs) to be achieved over the period of reporting are identified as followed:

- DLI3: MoE HR Database checked and reconciled through verification of HR personnel records at the public schools
 - At least 75¹ percent of the public schools have been checked to vet data of personnel database.
- DLI4 - Improved personnel management of education sector to boost teachers' monitoring and enhance ministry's financial efficiency
 - Conduct analysis of at least 100 percent of teachers' payroll data and publish annually consolidated results of such analysis

As part of the methodology of the Ministry for executing the activities to achieving the DLIs, a centralized spot-check team in collaboration with the Civil Service Agency (CSA), and the County officers (CEOs, DEOs, HR officers, M & E officers) were assigned to conduct physical verification of the Ministry of Education employees across the Fifteen counties, with the intention to account for all Public Schools employees recorded on Government Payroll. The focus of the verification was to at least conduct a spot-check of about 75% of all public schools to achieve the project DLI target of at least 75% of all Public-School Personnel Database vetted by end of 2023 and 100% Analysis of Payroll data.

Vetting teams comprising of staff of the Ministry of Education Central Office and the Civil Service Agency (CSA) visited and conducted the physical verification by cluster for all staff listed on the active payroll as at the period October 2021 to December 2023. The process was planned to ensure that every personnel of the Ministry of Education enlisted to the active Government payroll were physically vetted and all relevant documents to substantiate the legitimacy of their teaching or administrative work status captured.

As part of efforts to adequately update the MoE's personnel records system, documentary evidences that were reviewed during the spot-check include, school attendance records/logs,

¹ This percentage is cumulative

personnel appointment letter, personnel record file consisting of credentials, and a confirmation listing signed by the school supervisor/principal specific to the employees' attendance status.

Following the completion of the spot-check, an analysis was conducted to gauge the match and mis-match of the findings and present an updated CSA-MoE Employee Payroll Registry for publication and use by the Government of Liberia payroll system, through the CSA and Ministry of Finance, Development and Planning (MFDP).

The analysis thus far reports the new achieved cumulative target referencing the results of the spot-check conducted in all counties as indicated by phases in which the spot-check was executed:

Spot-check details disaggregated by phases:

No	Counties	Percentage (%) Public Schools	Year Conducted
1	Montserrado	8.6%	Phase 1: 2021
2	Nimba	17.3%	Phase 1: 2021
3	Bong	9.8%	Phase 1: 2021
4	Bomi	4.3%	Phase 2: 2022
5	Grand Bassa	6.4%	Phase 2: 2022
6	Margibi	6.3%	Phase 2: 2022
7	Lofa	10.6%	Phase 3: 2022
8	Grand Cape Mount	5.1%	Phase 3: 2022
9	Gbarpolu	3.9%	Phase 3: 2022
10	Grand Gedeh	4.9%	Phase 4: 2023
11	RiverGee	3.6	Phase 4: 2023
12	Maryland	5.4%	Phase 4: 2023
13	Sinoe	5.5%	Phase 5: 2023
14	Grand Kru	5.9	Phase 5: 2023
15	Rivercess	3.5%	Phase 5: 2023

The Spot-check exercise was conducted in phases with Bong, Montserrado and Nimba accounting for 35.7% of total public-schools and forming part of phase one during the PFMRIS project year-two; see report (*2021, Payroll Data Analysis, 25% Public-school Database Vetted, PFMRISP*). The phase was conducted in 2021.

Particularly, Bong County 276 (9.8%) Public schools with a total workforce comprising of teaching, administrative and support staff of about 1,337. Bong consisted of a total teaching² staff of 1,227, constituting about 91.8% and 110 support and administrative staff, 8.2%. The Bong County spot-check confirms that out of 1,337 education workers originally listed in the 2021 CSA-MoE Employee Payroll Registry, 1,151 (86.09%) employees were verified and updates made to

² Teaching staff comprises of Principal, Teacher, Vice Principal

the original database records and a total of 186 employees on the active payroll not physically verified due to “No Show” (See *Annex 1.2: Bong County “No Show” employee listing*).

Similarly, Montserrado contained 241 (8.6%) public-schools, with a total workforce of about 2,551. The county registered 2,272 (89.1%) teaching staff and 279 (10.9%) administrative and support staff. Spot-check reported 2,284 (89.53%) total employees vetted out of 2,551; given a total of 267 active payroll personnel not physically verified and considered “No Show” (See *Annex 1.6: Montserrado “No Show” employees Listing*). Montserrado County contains about 241 Public schools, which accounts for approximately 8.6% of all public schools in Liberia with a total workforce of about 2,551 staff (teaching, administrative and support staff). The total teaching staff (teachers, vice principals and principals) accounts for 2,272, constituting about 89.1% teaching staff, and 279 support and administrative staff, which reads about 10.9%. The Montserrado spot-check confirms that out of 2,551 education workers originally listed in the CSA-MoE Employee Payroll Registry, 2,284 employees were verified and updates made to the original database records. An additional 57 employees (See *Annex 1.5: Montserrado Additional Accounts from other counties*) previously assigned in different counties were identified to be have been transferred to Montserrado, resulting to a total of 2,608 employees records. This showed a total of 324 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 1.6: Montserrado “No Show” employees Listing*). The final county under the first phase of the spot-check referenced to the report stated above was Nimba county. The county consists of 486 (17.3%) public-schools with a total workforce of 2,740 employees³, comprising of 2,371 (86.5%) teaching staff and 369 (13.5%) administrative and support staff. Completed spot-check results showed a total of 2,559 (93.4%) employees were verified while 181 (6.6%) employees were “No Show” (See *Annex 1.8: Nimba “No Show” employee listing*).

Phase two accounted for at least a cumulative 50% of public-schools database and generated the following results, hence, improving the management of the CSA-MoE Employee Payroll Registry through updates, leading to actions taken for payroll changes beyond the month of June 2022.

The spot-check targeted about 122 public-schools in Bomi representing 4.3% and with a workforce of 480 employees. The total teaching staff accounts for 410, constituting about 85.4% and 70 administrative and support staff representing 14.6% of total payroll staff of Bomi County. Following the completion of the spot-check, a total of 423 (88.1%) employees were verified and updates made to the database, while a total of 57 (11.9%) employees were not physically verified due to “No Show” (See *Annex 1.1: Bomi County “No Show” employee listing*).

Grand Bassa county accounts for 180 public-schools representing 6.4% of public-schools and with a total workforce of about 635 employees. The total teaching staff reads 566 constituting about 89.1% and 69 administrative and support staff representing 10.9% of total staff of Grand Bassa County. The spot-check confirms that out of 635 employees originally listed in the CSA-MoE

³ Consist of both Teaching, administrative and support staff

Employee Payroll Registry, 538 (84.7%) employees were verified and updates made to the database, leaving a total of 97 (15.3%) employees not physically verified due to “No Show” (See *Annex 1.3: Grand Bassa County “No Show” Employee Listing*).

The spot-check targeted about 176 public-schools in Margibi representing 6.3% and with a workforce of 1048 employees. The total teaching staff accounts for 924, constituting about 88.2% and 124 administrative and support staff representing 11.8% of total payroll staff of Bomi County. The spot-check, a total of 890 (84.9%) employees were verified and updates made to the database, while a total of 158 (15.1%) employees were not physically verified due to “No Show” (See *Annex 1.4: Margibi County “No Show” Employee Listing*).

The phase next phases of the project targeted the remaining Nine (9) counties; RiverGee, Gbarpolu, Grand Gedeh, Maryland, Grand Kru, Lofa, Rivercess, Grand Cape Mount, and Sinoe.

RiverGee County contains about 100 Public schools, representing 3.6% of all public schools in Liberia and with a total workforce of about 422 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 357, constituting about 84.6% teaching staff and 65 support and administrative staff, which reads about 15.4%.

The RiverGee spot-check confirms that out of 422 education workers originally listed in the CSA-MoE Employee Payroll Registry, 361 employees accounts, consisting of 302 teaching staff were verified and corrections made to the original database records. This leaves a total of 61 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.5: RiverGee County “No Show Listing*).

Lofa County contains about 298 Public schools, representing 10.6% of all public schools in Liberia with a total workforce of about 1,513 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 1,340, constituting about 88.6% teaching staff and 173 support and administrative staff, which reads about 11.4%.

The Lofa spot-check confirms that out of 1,513 education workers originally listed in the CSA-MoE Employee Payroll Registry, 1316 employees accounts, consisting of 1152 teaching staff were verified and corrections made to the original database records. This leaves a total of 197 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.3: Lofa County “No Show Listing*).

Gbarpolu County contains about 110 Public schools, representing 3.9% of all public schools in Liberia with a total workforce of about 497 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 397, constituting about 79.9% teaching staff and 100 support and administrative staff, which reads about 21.1%.

The Gbarpolu spot-check confirms that out of 497 education workers originally listed in the CSA-MoE Employee Payroll Registry, 404 employees accounts, consisting of 330 teaching staff were verified and corrections made to the original database records. This leaves a total of 93 employees

on the active payroll that were not physically verified due to “No Show” (See *Annex 1.9: Gbarpolu County “No Show Listing*).

Grand Cape Mount County contains about 144 Public schools, representing 5.1% of all public schools in Liberia with a total workforce of about 563 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 483, constituting about 85.8% teaching staff and 80 support and administrative staff, which reads about 14.2%. The Grand Cape Mount spot-check confirms that out of 563 education workers originally listed in the CSA-MoE Employee Payroll Registry, 493 employees accounts, consisting of 426 teaching staff were verified and corrections made to the original database records. This leaves a total of 70 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.0: Grand Cape Mount County “No Show Listing*).

Grand Kru County contains about 137 Public schools, representing 4.9% of all public schools in Liberia with a total workforce of about 710 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 554, constituting about 78.02%% teaching staff and 156 support and administrative staff, which reads about 21.98%. The Grand Kru spot-check confirms that out of 710 education workers originally listed in the CSA-MoE Employee Payroll Registry, 637 employees accounts, consisting of 497 teaching staff were verified and corrections made to the original database records. This leaves a total of 73 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.2: Grand Kru County “No Show Listing*).

Maryland County contains about 153 Public schools, representing 5.4% of all public schools in Liberia with a total workforce of about 754 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 627, constituting about 83.2% teaching staff and 127 support and administrative staff, which reads about 16.8%. The Maryland spot-check confirms that out of 754 education workers originally listed in the CSA-MoE Employee Payroll Registry, 668 employees accounts, consisting of 550 teaching staff were verified and corrections made to the original database records. This leaves a total of 86 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.4 Maryland County “No Show Listing*).

Rivercess County contains about 99 Public schools, representing 3.5% of all public schools in Liberia with a total workforce of about 421 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 357, constituting about 84.8% teaching staff and 64 support and administrative staff, which reads about 15.2%. The Rivercess spot-check confirms that out of 421 education workers originally listed in the CSA-MoE Employee Payroll Registry, 264 employees accounts, consisting of 218 teaching staff were verified and corrections made to the original database records. This leaves a total of 157 employees on the active payroll that were not physically verified due to “No Show” (See *Annex 2.6 Rivercess County “No Show Listing*).

Grand Gedeh county accounts for 137 public-schools representing 4.9% of public-schools and with a total workforce of about 889 employees. The total teaching staff (teachers, vice principals and principals) accounts for 704, constituting about 79.2% teaching staff and 185 support and administrative staff, which reads about 20.8%. The spot-check confirmed that out of 889 education workers originally listed in the CSA-MoE Employee Payroll Registry, 792 employees accounts, consisting of 623 teaching staff were verified and corrections made to the original database records. This leaves a total of 97 employees on the active payroll that were not physically verified due to “No Show”. (*See Annex 2.1: Grand Gedeh County “No Show Listing”*).

Sinoe County contains about 154 Public schools, which accounts for approximately 5.5% of all public schools in Liberia with a total workforce of about 740 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 580, constituting about 78.4% teaching staff and 160 support and administrative staff, which reads about 21.6%.

The Sinoe spot-check confirms that out of 740 education workers originally listed in the CSA-MoE Employee Payroll Registry, 612 employees accounts, consisting of 475 teaching staff were verified and corrections made to the original database records. This leaves a total of 128 employees on the active payroll that were not physically verified due to “No Show” (*See Annex 2.7: Sinoe County “No Show Listing”*).

Notwithstanding, the spot-check revealed the possibility that a staff could be found as “No Show” in one county, but that staff may be actively serving in another. These actions were caused by arbitrary transfers of employees by Education Officers without notifying the Central office through appropriate processes. However, as a way to ensure that fiscal space is not wasted on ghost/abandoned names, all accounts classified as “No Show” are recommended to be placed on salary hold for two (2) months while further investigation is conducted or given the employees an opportunity to report themselves. Nevertheless, if the employees that are on hold for a period of two months do not prove evidence of active service, such employee will be removed from the payroll and replaced with qualified teaching staff.

The gains of the spot-check allow the Ministry of Education to update all verified employees’ physical files and issue MoE employees with new Employees Identification Number. Each employee who successfully completed the physical verification had their employee files reviewed and rectified in case of missing documentation, such as letter of employment/Assignment, Personnel Action Notice (PAN), Copy of National Identification Card, or academic credential. The vetted dataset of the Fifteen (15) counties are been processed into the MoE HR automated database system (MoE VoxHR System) to ensure effective management of the records and to avoid anomalies creeping back onto the Employee Registry.

Project Description

The Ministry of Education (MoE) benefits from funding under the IPFMRIS project, Component 4 (Improving Upstream and Downstream PFM Systems in Selected Sectors), to improve and strengthen its financial control and accountability on payroll and related matters. As a result, the project has identified two (2) targets as milestones, when achieved, will incentivize the MoE to implement related activities geared towards achieving the overall project objective; improve domestic revenue mobilization systems, and strengthen financial control and accountability in public finances.

The component 4 of the project is specifically designed to reduce the extent of existing core PFM-related bottlenecks within the education sector that significantly impede the goal of improved service delivery systems, a necessary precondition toward improving Liberia's human capital. The component will support strengthened coordination between various programs being implemented at the Ministry of Education, including approaches and funding mechanisms. The component will help to streamline service delivery processes, avoid duplication, and prevent the increase of chances of corruption. This will facilitate better quality and quantity of service delivery, through targeted DLIs that encourage the relevant PFM reforms.

The quality and supply of teachers and working conditions are major factors affecting service delivery. The teaching workforce has more than doubled over the past decade, and up to 90 percent of MoE's annual recurrent expenditure is on salaries and allowances. However, the system still has teacher shortages, with about 6,600 classrooms lacking a teacher, according to the latest available data from the 2017 Education Sector Plan. There are complications with payroll management due to a lack of alignment between payroll lists, which are housed at three government agencies. One PFM bottleneck hampering greater efficiency in the allocation and use of resources concerns the disconnect between the MoE personnel data and payroll registries, with the latter being managed by the Civil Service Authority (CSA). Non-interoperable databases, inter-ministerial communication challenges, bureaucratic procedures, and human error have led the Ministry to inadvertently pay teachers who: a) appear more than once on the payroll, b) are unable to work and/or should have been retired, or c) are absent (have passed away or teachers who shirk their duties). The Government is also unable to replace teachers and begin paying new teachers in a timely manner. These complications divert resources away from qualified, working teachers and drag down the educational performance of students. The Ministry is also unable to replace teachers and begin paying new teachers in a timely manner. These complications divert resources away from qualified, working teachers and drag down the educational performance of students which this project is intending to address.

Disbursement Link-Indicators Targets

Each year, two DLIs targets are selected for this project aimed at addressing interrelated PFM bottlenecks with the objective of better managing the human resources and reconcile GoL's monthly payroll using vetted personnel data.

Table 1.1: DLI Matrix and descriptions:

DLI	Baseline	To be achieved by Year 1 (2020)	To be achieved by Year 2 (2021)	To be achieved by Year 3 (2022)	To be achieved by Year 4 (2023)

DLI 3	DLI3: MoE HR Database checked and reconciled through verification of HR personnel records at the public schools
Data source/ Agency	MoE personnel data, data from individual schools
Verification Entity	IVA
Procedure	IVA to conduct random sampling of school data to validate MoE personnel database Year 1: MoE HR database established with twelve (12) critical fields, populated using existing data - County, district, school/office, EMIS code (for schools), employee code, name, position, level, qualification, payroll status, payroll number, and salary Year 2: At least 25% of the public schools have been checked to vet data of personnel database [baseline 0%] Year 3: At least 50% (cumulative) of public schools have been checked to vet data of personnel database Year 4: At least 75% (cumulative) of the public schools have been checked to vet personnel data

DLI 4	DLI4 - Improved personnel management of education sector to boost teachers' monitoring and enhance ministry's financial efficiency
Data source/ Agency	MoE personnel database
Verification Entity	IVA
Procedure	<p>IVA to ensure development of quarterly payroll data analyses</p> <p>Year 1: (a) Inter-Ministerial Coordination Committee (IMCC) approved by the Recipient's Cabinet; (b) Monthly meetings of IMCC (MoE, CSA, MFDP) held nine (9) months from the Effectiveness Date and Minutes including Decisions to be taken recorded; and (c) Verification of actions on Decisions taken satisfactory to the Association</p> <p>Year 2: Conduct analysis of at least 50 percent of teachers' payroll data and publish annually consolidated results of such analysis</p> <p>Year 3: Conduct analysis of at least 75 percent of teachers' payroll data and publish annually consolidated results of such analysis</p> <p>Year 4: Conduct analysis of at least 100 percent of teachers' payroll data and publish annually consolidated results of such analysis</p>

Background

The disconnect between the Ministry of Education (MoE) personnel data and payroll data is a major PFM bottleneck hindering greater efficiency in the allocation and use of resources. Two disbursement linked indicators (DLIs) in the Public Financial Management Reforms for Institutional Strengthening (PFMRIS) project, DLI3 and DLI4, help push for transparent and published payroll information, and in order to be achieved, review and analysis need to take place between accurate and up-to date personnel and payroll registers.

The project milestone is geared towards vetting the MoE Human Resource Database containing personnel records of public schools, thereby correcting any anomalies and updating the personnel information with most recent dataset. To date, the MoE has successfully completed the vetting of database of 2,813 public schools accounting for about 100% of total public schools in Liberia according to EMIS data 2019/2020. The vetting was conducted in all fifteen counties, respectively, which serves as the basis of the analysis contained in the report.

The project DLI when executed, aims at achieving the following key outputs:

- Increased control over the MoE payroll
- Improved monitoring of teacher absenteeism
- Greater oversight in the use of sectoral funds

To ensure that ghost workers do not creep back into the system, continual vetting needs to take place based on an up-to-date personnel registry.

Methodology and Approach

A team consisting of personnel of the HR Division of the Central Office, County HR officers, County Monitoring & Evaluation (M & E) officers, District Education officers, County Education Officers and the Civil Service Agency (CSA) was setup to conduct the physical verification of MoE employees across the selected counties for the current phase. A team was assigned per county. The physical verification of education workers is targeted to be conducted in all 15 counties; in all public schools and administrative offices. The exercise is divided into five (5) phases with three counties spot-check implemented in each phase. The phase one of the spot-check targets Bong, Montserrado and Nimba counties, while the most recent exercise, phase two targets Bomi, Grand Bassa, and Margibi.

Eleven members were at all time assigned to a team, with each team member having a specific role as defined in the below table:

Table 1.2: Team composition and responsibilities

No	Team member / title	# of persons	Role
1	<i>Team Lead/Supervisor</i>	1	Responsible for team coordination and ensuring adherence to protocol and guidelines as well as county vetting report.
2	<i>Personnel Data Desk Review officer</i>	1	Responsible to match Information on CSA-MoE-Employee Registry (Active payroll) with EMIS/Principal Listing. Verify credential and gauge inconsistency between datasets.
3	<i>Personnel Data Computerized updating officer</i>	1	Capture/computerize updated records into the reporting template (CSA-MoE-Employee Registry data entry version).
4	<i>Volunteer Data Desk Review officer</i>	1	Interview volunteers to validate their statuses. Confirm volunteer statuses with EOs and County HR
5	<i>Volunteer Data capturing officer</i>	1	Capture/computerize updated records into the qualified volunteer repository (reporting template)

6	<i>ID card Photo Taker</i>	1	Responsible to capture photos of verified employees using digital camera and share for printing of MoE Employees' ID Cards
7	<i>ID Card Printing staff</i>	1	Responsible for printing of ID Cards using photos obtained from ID Card photo Taker Responsible to distribute and capture record of printed Employees' ID Cards recipients.
9	<i>M&E Officer</i>	1	Provide support and become familiar with the personnel data for future monitoring and tracking teachers and education personnel using data collected in the HR degitized personnel data to improve education service delivery
10	<i>County Human Resource Officer</i>	1	Responsible to support vetting teams with appropriately gathering the employees by schools for vetting. Also perform all other responsibilities as assigned by the Team supervisor.
11	<i>District Education Officer (DEO)</i>	1 ⁴	Responsible to provide all facilities to the vetting team as well as ensure that adequate awareness of the exercise as done across the district.

For the purpose of the exercise, a personnel verification criterion was established in order to successfully vet employees of the public schools' personnel database in line with the project requirement and consistent with the CSA standing order for personnel attendance.

⁴ DEOs will be assigned based on teams conduct of exercise in their district.

The following compulsory requirements were determined as checklist to conclude the vetting of personnel:

General Criteria

- Staff must be physically present and must be accompanied by the Principals of the schools who serves to confirm the staff attendance status with the school
- The staff must have a valid Identification (ID) document that shows at least, the individual’s Full Name and Date of Birth (ie. Passport, Birth Certificate, Voter’s Registration Card or National Identification card)
- That the personnel has an appearance on General Attendance Records at place of assignment being presented by the Principals
- That the personnel has an appearance on the school of assignment personnel list and the HR listing of the county

A template consisting of records of all active employees was designed as reporting template for the exercise. Each team was provided a dedicated laptop with loaded reporting template that only allowed data entries into fields marked for edits; while the original dataset of the template was coded and locked which allows reporting team to track changes/updates or correction. The template also consisted of a column for comments for instances where verification team required to report on specific issue on a case-by-case basis.

The below table shows the purpose of use of each data point on the reporting template.

Table 1.3: Data points and description

No.	Data Point	Reason for Collection
1.	Full Name (First, Middle, Last)	<ol style="list-style-type: none"> 1. Would be used to search within Payroll for matching name provided 2. First and Last Name would subsequently be used by the Data Validation Tool to analyze all matching Name Duplicates for the identification of potential duplicates on payroll. 3. Name is used to scrutinize and basically validate all supporting documents provided once name matches 4. Name is used in conjunction with ID documents to validate full name being provided 5. Name is used to update existing Payroll Account with correctly spelt name being provided

2.	Payroll Number/Employee Number	<ol style="list-style-type: none"> 1. Would be used to search within Payroll for matching Payroll Number or Employee Number provided 2. Will be used to cross-check for existence as well as duplicates on payroll 3. Payroll Numbers or Employee Number would be used by Data Validation Tool as the primary key field in cross-referencing of Payroll and HR Data
3.	Date of Birth	<ol style="list-style-type: none"> 1. Name is used in conjunction with ID documents to validate Date of Birth being provided 2. Date of Birth is used for retirement calculation 3. Date of Birth, NIN and Name would form a unique key in duplication matching processes
4.	Sex	<ol style="list-style-type: none"> 1. Sex would be used for gender comparative reports 2. Sex is also used to physically verify
5.	Job Title / Position	<ol style="list-style-type: none"> 1. Would be used to validate Job Title / Position found on the Ministry payroll Registry 2. This data point is used in conjunction with supporting academic documents to ascertain qualification for the Job / Title Position.
6.	Area of Assignment	<ol style="list-style-type: none"> 1. This is used to validate the Area of Assignment found on the Ministry Registry 2. This data point is used to provide location-based reporting and analyses 3. This data point in conjunction with Attendance Records validates the proper assignment area of the individual being processed

Procedure for verification

The following actions will be required of each host county, district and school team:

- The County Education Officer (C.E.O.) submitted the county personnel listing and any other findings to the county spot-check team supervisor ahead of the verification
- The District Education Officer (D.E.O.) was responsible to submit the name and location of all schools under his/her supervision. DEO was also responsible to manage the schools scheduling provided by the verification team.
- The Principal of each school was responsible to submit the list of employees that are currently assigned in his/her school. The spot-check team was required to see the employee in person and match their biodata to the existing CSA-MoE Employee Payroll Registry, and update the employee’s physical file, accordingly. The principal of each public school was asked to provide the following during vetting.
 - Identify the teacher and validate whether or not the staff are assigned to the school
 - Attendance Records that reflects the employee’s name,
 - Recent Lesson plan submitted to the principal’s or VPI’s office
 - Any other document available to substantiate legitimate employment status to avoid misrepresentation of persons.

The below graph shows the order of activities of each team upon deployment in a county for spot-check exercise.

Table 1.4: Vetting Team working procedures

Phase 1 Activities sequence			
<p>Preliminary activities:</p> <ol style="list-style-type: none"> 1. Send list of schools by district by county and verification timetable/timeline to County team⁵ 2. Share public Service announcement at county level about exercise 	<p>Vetting Team arrives in County at the resident district (CEO's office)</p>	<p>Vetting team led by supervisor holds consultation with School Principals, EOs & staff about the assignment, period of work, and activities to be conducted</p>	<p>Vetting team in collaboration with county team setups vetting point.⁶</p>
<p>A queue will be setup for employees who are to be vetted. Vetting will be conducted one school at a time by district.</p>	<p>The school principal will lead their school in the queue in order to identify and verify teacher consistence with school's personnel list. The County HR will review each person in queue to identify their status as active payroll employee or volunteer and assign them to the appropriate queue. There will be one queue for volunteers and one for active payroll staff.</p>	<p>Active Payroll staff vetting:</p> <p>Personnel Data Desk Review officer will check all relevant information of staff to confirm validity or identify corrections needed. All corrections will be shared with Personnel Data Computerized updating officer who will update the data entry template appropriately.</p>	<p>Volunteer staff vetting:</p> <p>Personnel Data Desk Review officer will check all relevant information of volunteer staff to confirm validity. Upon confirmation of qualified volunteer status, information will be shared with Volunteer Data capturing officer who will update/record the data to the repository/template appropriately.</p>
<p>Upon completion of review and update of Active Payroll employees</p>	<p>The Employee ID card team will complete the production of ID card</p>		<p>Physical files are compiled and forwarded to central</p>

⁵ The district by county vetting timeline will guide the EOs on the time a school employees should attend their vetting session

⁶ Vetting points will be located at a public school

by the Desk review and Computerizing officers, employee will proceed for employee ID card production along with their approved folders.	and file the approved folders, by school, by district, accordingly.	End of spot-check/verification	office for reporting and subsequent placement into employees filing system

Data Review and Targets

Referenced to the current active payroll record, the Ministry of Education employee database consists of the following number of schools disaggregated by county, based on the Human Resource record and active payroll records hosted at the Ministry of Finance Development, and Planning as follows:

Table 1.5: Public Schools disaggregated by County by Number of Employees (As at FY 2021)

	County	Targeted No. of Employees	Targeted No. of Schools	Percentage (%) of Schools
1	Nimba	2740	486	17.3%
2	Lofa	1364	298	10.6%
3	Montserrado 1 & 2	2551	241	8.6%
4	Bong	1337	276	9.8%
5	Grand Bassa	635	180	6.4%
6	Margibi	1048	176	6.3%
7	Sinoe	644	154	5.5%
8	Maryland	678	153	5.4%

Data Analysis Notes

Payroll data is updated on a monthly basis by the Human Resource Division of the Ministry of Education which is supervised by the Bureau of Fiscal Affairs and Human Resource. This process is conducted in collaboration with Civil Service Agency (CSA) and Ministry of Finance, Development, Planning (MFDP) in line with Standard Operating Procedures for managing the Government of Liberia payroll as outlined by the Civil Service Agency. The Payroll Registry as titled which refers to the official Government of Liberia payroll dataset of the Ministry of Education, consists of employees and salary-related critical fields of data as follow: Location, First name, Middle name, Last name, Employee ID or Payroll Number, National Identification Number (NIN), Position, Department, LD/USD Company, LD/USD account, and Salary amount.

MoE Employee Personnel Registry on the other hand is the database of employees records that is captured and maintained by the Ministry of Education Human Resource Management System and consists of a consolidated dataset generated from the Payroll Registry with the following additional data fields: County, District, Place of Assignment (School/office), EMIS code (for schools), Full name of Employee, Employee ID (ATAPS Number), Position, Teaching status/level, Qualification, Gender, Date of Birth, Date of Employment and Employment status (Active or Terminated)

The Employee ID (ATAPS Number) is unique for each employee and is used as the primary key to match employee records between the payroll and personnel datasets in order to determine matches and changes.

For the purposes of the analysis, the findings of the vetting exercise are analyzed and matched to the existing CSA-MOE Employee Payroll Registry with an expected outcome to show transparency in the payroll management, notwithstanding to also gauge discrepancies in the datasets. The analysis outlines the total number of critical fields updated, total number of payroll staff that have been physically verified, and the total number of staff considered to be “No Show/not verified”, where “No Show” represents employees who may have abandoned the job with without notice to the Human Resource Division.

In line with the project requirements, the analysis serves as a way to signal and monitor the major milestones consistent with planned results chain; with outcome been used to achieve the envisioned Project Development Objectives (PDOs) of the Public Financial Management Reform Institutional Strengthening project Disbursement-Linked Indicators (DLIs). The vetting results aim to ensure that the MoE personnel database which contains the Public-schools employees records present an accurate and reliable account of the workforce with which to reconcile payroll data. The DLI targets are process-indicators that address specific risks or constraints to achieving improved service delivery.

CSA-MoE Employee Payroll Registry Annual Analysis

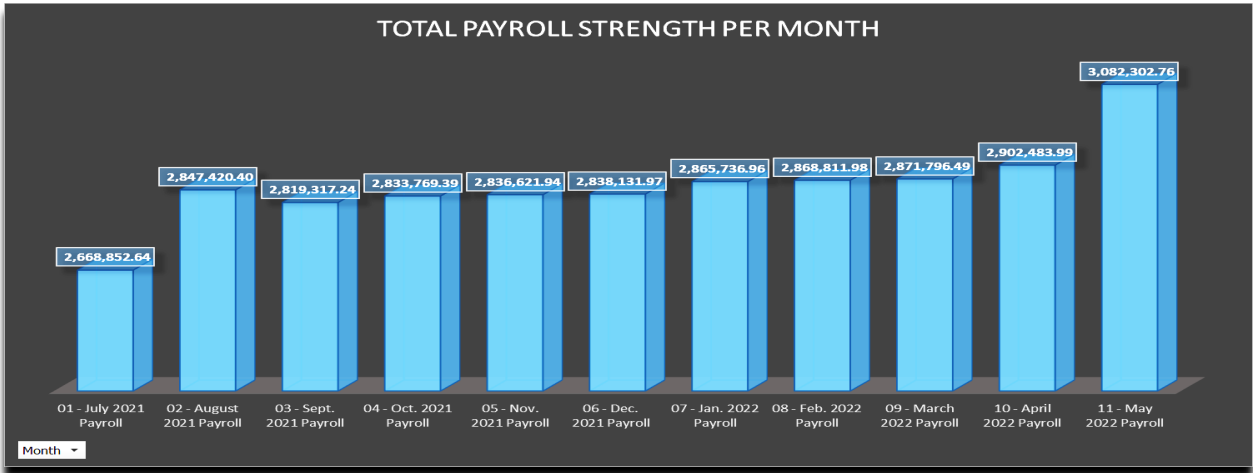

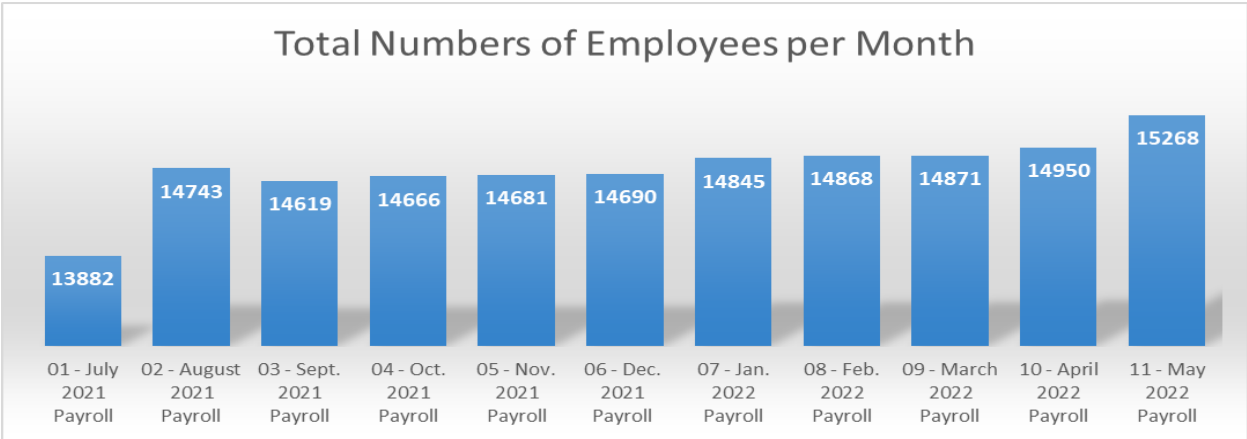

The Annual Payroll Analysis is informed by the monthly changes in number of employees, and salary amount of the MoE payroll. These changes happen as a result of several factors, including abandonment, identification of ghost names/accounts, retirement, termination and in some cases, death. Each month, the MoE Human Resource Division gathers all reports of actions to be applied onto the payroll and share with the Civil Service Agency (CSA) for review and approval. These reported actions are generated from communications forwarded to the central office by the county education officers.

The below table shows the CSA-MoE Employee Payroll disaggregated by Month by Year and showing the changes in number of employees and payroll amount. The proceeding graphs show the shift in amount spent on monthly salary.

Table 1.21: Showing the CSA-MoE Employee Payroll breakdown (Number of employees, salary amount by month by year)

Month	# of employees	Payroll Amount
July 2021 Payroll	13,882	2,668,852.64
August 2021 Payroll	14,743	2,847,420.40
Sept. 2021 Payroll	14,619	2,819,317.24
Oct. 2021 Payroll	14,666	2,833,769.39

CSA-MoE Employee Payroll Vetting Analysis

Focusing on data reconciliation between the payroll and personnel datasets, and the findings of the spot-check of at least 75% (1,481 public schools) database in line with the requirement of the project. Notwithstanding, the MoE surpassed the target, which adjust this analysis to comprise of 100% of Public-schools (2,813) and 100% of Payroll data as of period under review. The following activities are captured in the analysis:

- Number and Percentage of personnel that were vetted by county;
- Number and Percentage of matches and non-matches of personnel biodata using Employee ID comparing Personnel Records by place of assignment to ensure

MoE database reflects the reality of placement / deployment of employees at schools and offices;

- Outlining the number of changes to critical data fields on the CSA-MoE Employee Payroll Registry;
- Outlining the number and percentage of discrepancies, missing data fields and corrected data for completeness of MoE database.

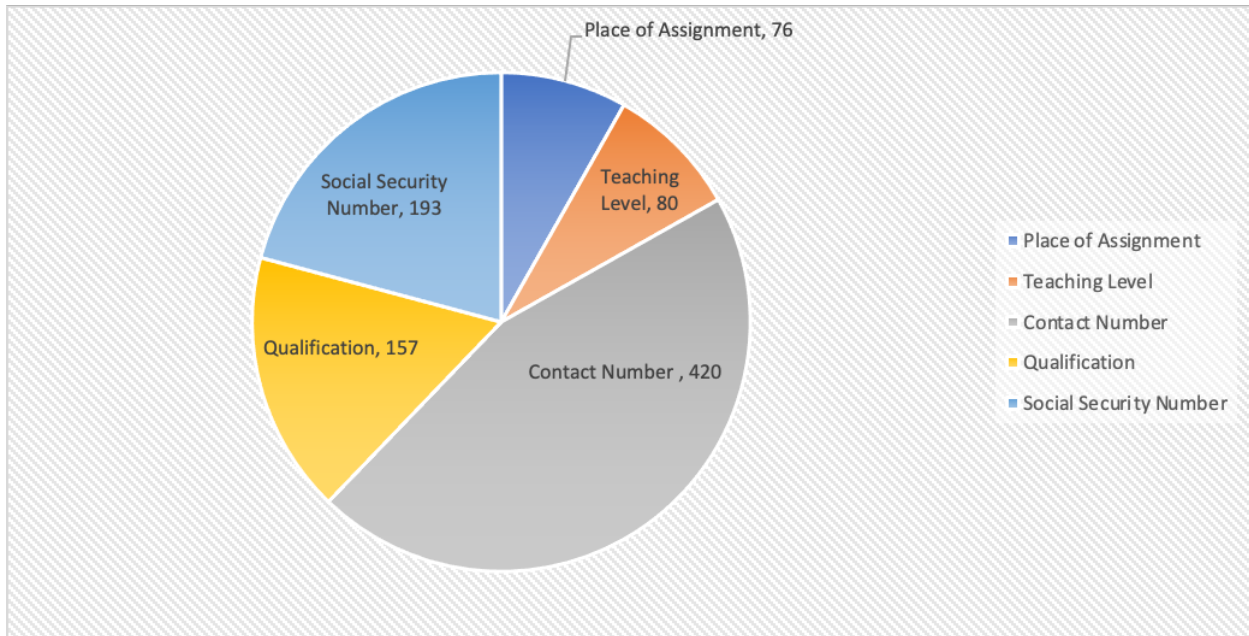

The analysis of the spot-check results and Payroll Registry is disaggregated by county in the order which the spot-check was conducted as follows:

Bomi County

Referenced to the current Ministry of Education payroll data, Bomi County contains about 122 public-schools, which accounts for approximately 4.3% of all public schools in Liberia with a total workforce of about 480 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals, principals) accounts for 410, constituting 85.4% and 70 administrative and support staff, which reads about 14.6%.

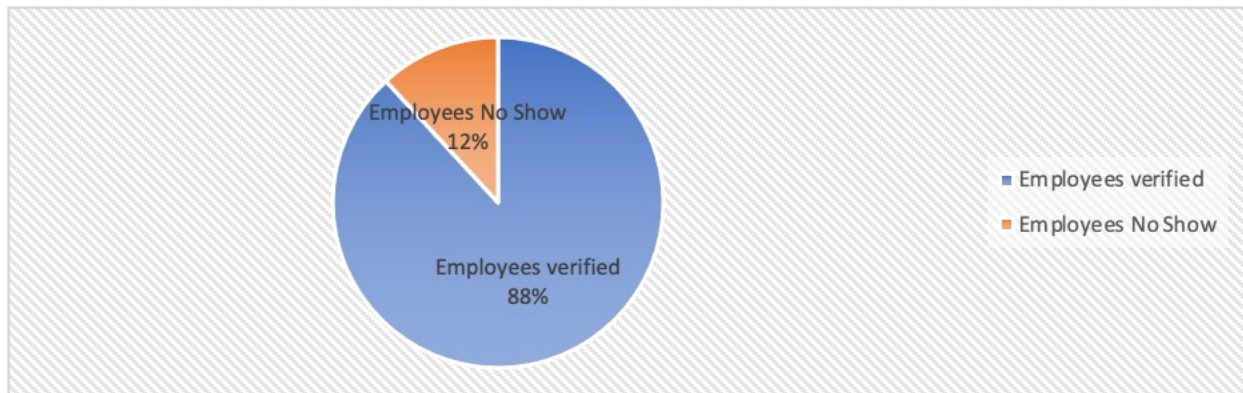

Upon completion of the Bomi County Database vetting, approximately 1,068 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 76 places of assignment (schools and offices), 80 teaching levels, 420 contact numbers added, 157 qualification updated to indicate area of specialization or major, and 193 Social Security Numbers added as well as all NIN dataset updated among others, leading to corrections and reconciliation of MoE personnel records with the CSA-MoE Employee Payroll Registry.

Figure 2.7: Number of changes made to critical fields of database

The Bomi spot-check confirms that out of 480 education workers originally listed in the CSA-MoE Employee Payroll Registry, 423 employees, consisting of 370 teaching staff were verified with the above corrections made to the original database records. This leaves a total of 57 employees on the active payroll that were not physically verified due to “No Show”.

Figure 2.8: Number and percentage of Bomi employees verified

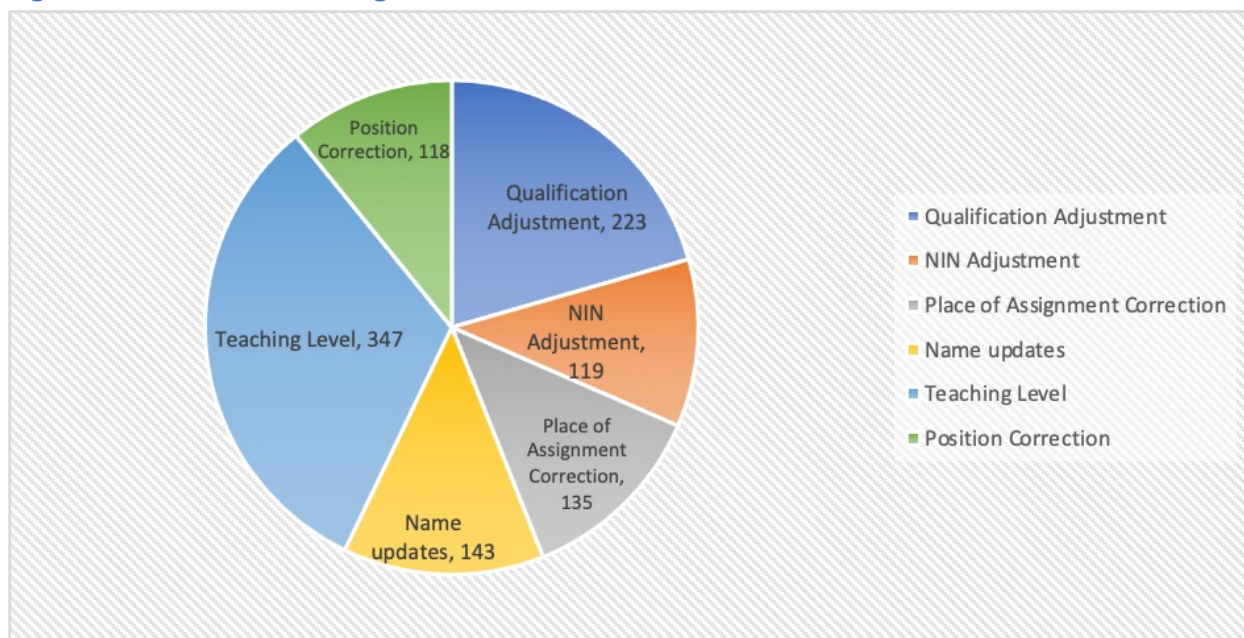

Bong County

Referenced to the current Ministry of Education payroll data for the report, referred to as MoE-CSA Payroll Registry, Bong County contains about 276 Public schools, which accounts for approximately 9.8% of all public schools in Liberia with a total workforce of about 1,337 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 1,227, constituting about 91.8% teaching staff and 110 support and administrative staff, which reads about 8.2%.

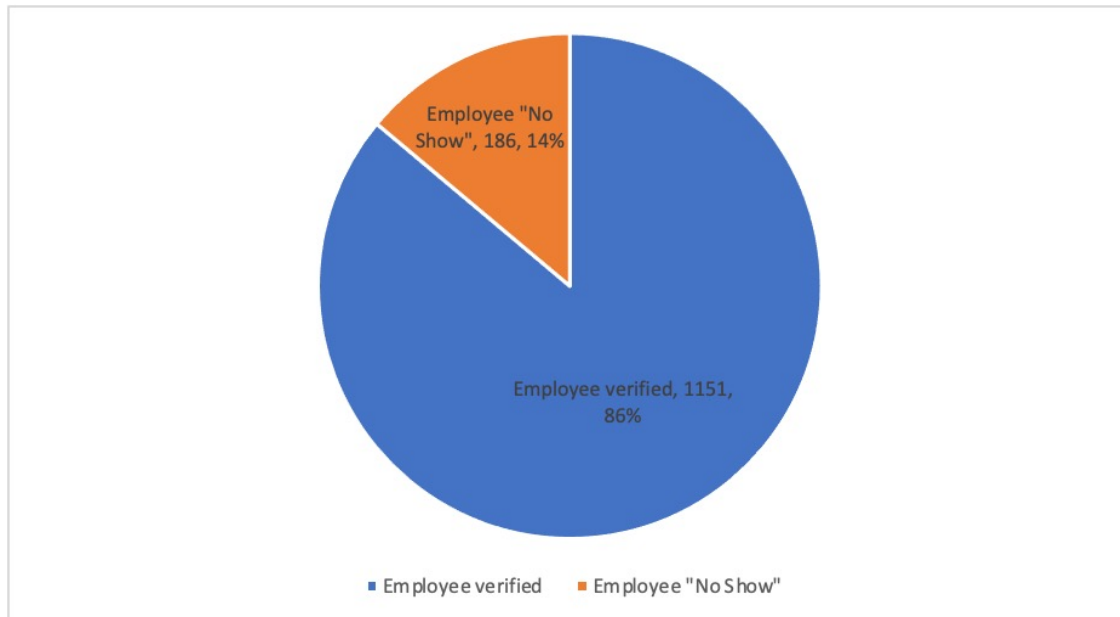

Upon completion of the Bong County Database vetting, approximately 1,326 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 135 places of assignment (school or office), 143 employee names, 298 teaching levels, 118 positions, 223 qualifications, and all missing NIN dataset were updated among others, leading to corrections and reconciliation of the MoE personnel records with the MoE-CSA Employee payroll Registry.

Figure 2.9: Number of changes made to critical fields of database

The Bong spot-check confirms that out of 1,337 education workers originally listed in the CSA-MoE Employee Payroll Registry, 1,151 employees, consisting of 1,053 teaching staff were verified with the above corrections made to the original database records. This leaves a total of 186 employees on the active payroll that were not physically verified due to “No Show”.

Figure 3.0: Number and percentage of Bong employees verified

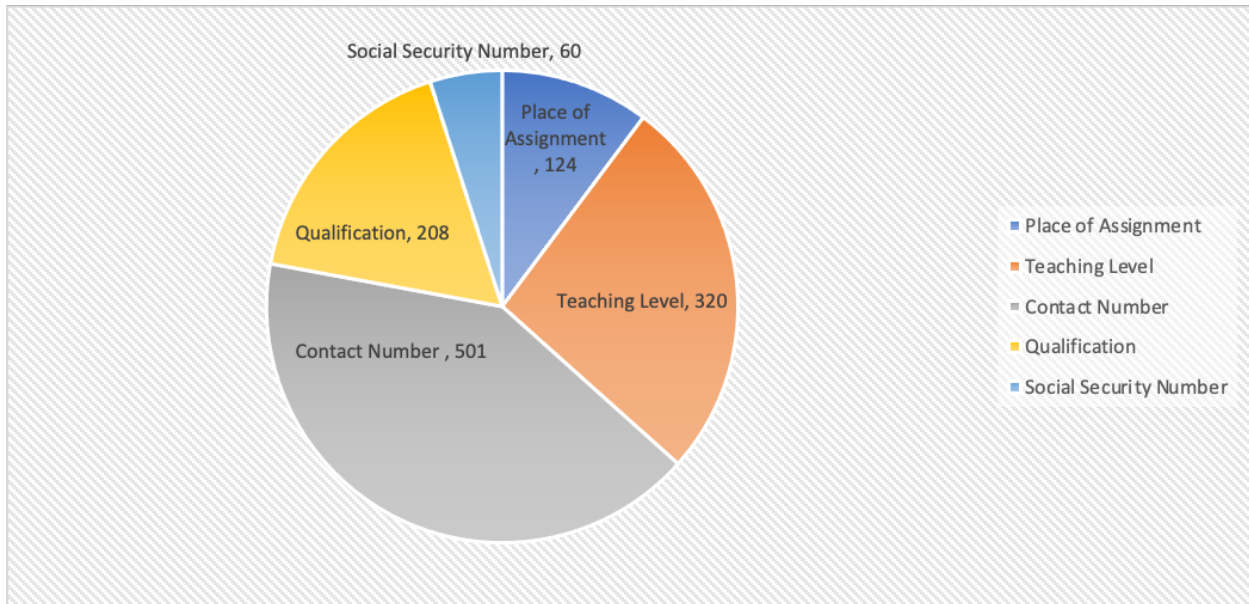

Grand Bassa

Referenced to the current Ministry of Education payroll data, Montserrado County contains about 180 Public schools, which accounts for approximately 6.4% of all public schools in Liberia with a total workforce of about 635 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 566, constituting about 89.1% teaching staff and 69 support and administrative staff, which reads about 10.9%.

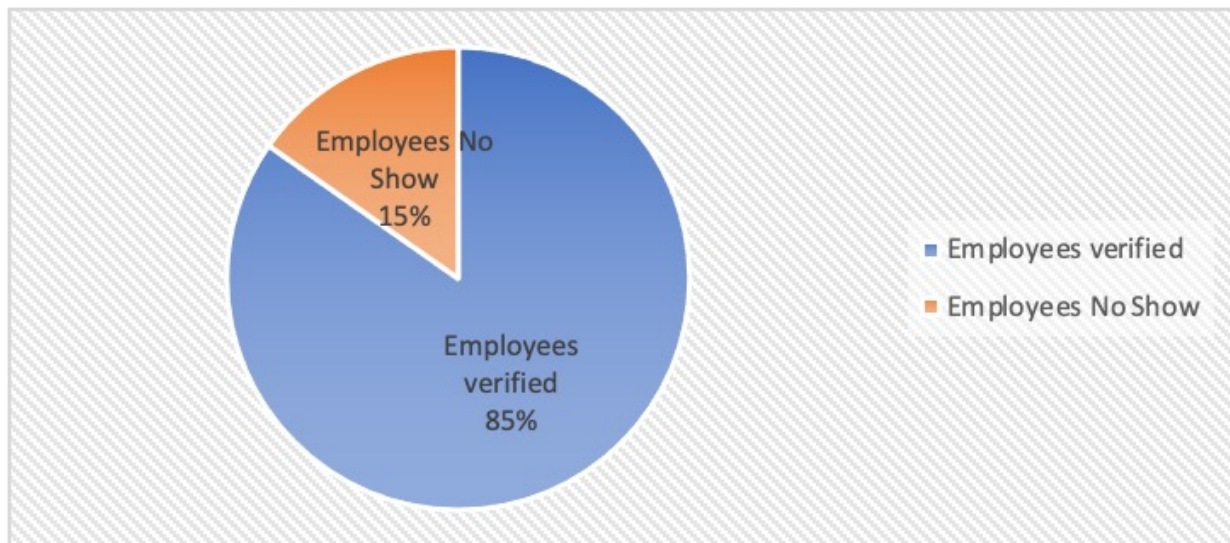

Upon completion of the Grand Bassa County Database vetting, approximately 1,451 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 124 places of assignment (schools and offices), 320 teaching levels, 501 contact numbers added, 208 qualification updated to indicate area of specialization or major, and 60 Social Security Numbers added as well as all NIN dataset updated among others, leading to corrections and reconciliation of MoE personnel records with the CSA-MoE Employee Payroll Registry.

Figure 3.1: Number of changes made to critical fields of database

The Grand Bassa spot-check confirms that out of 635 education workers originally listed in the CSA-MoE Employee Payroll Registry, 538 employees, consisting of 488 teaching staff were verified with the above corrections made to the original database records. This leaves a total of 97 employees on the active payroll that were not physically verified due to “No Show”.

Figure 3.2: Number and percentage of Grand Bassa employees verified

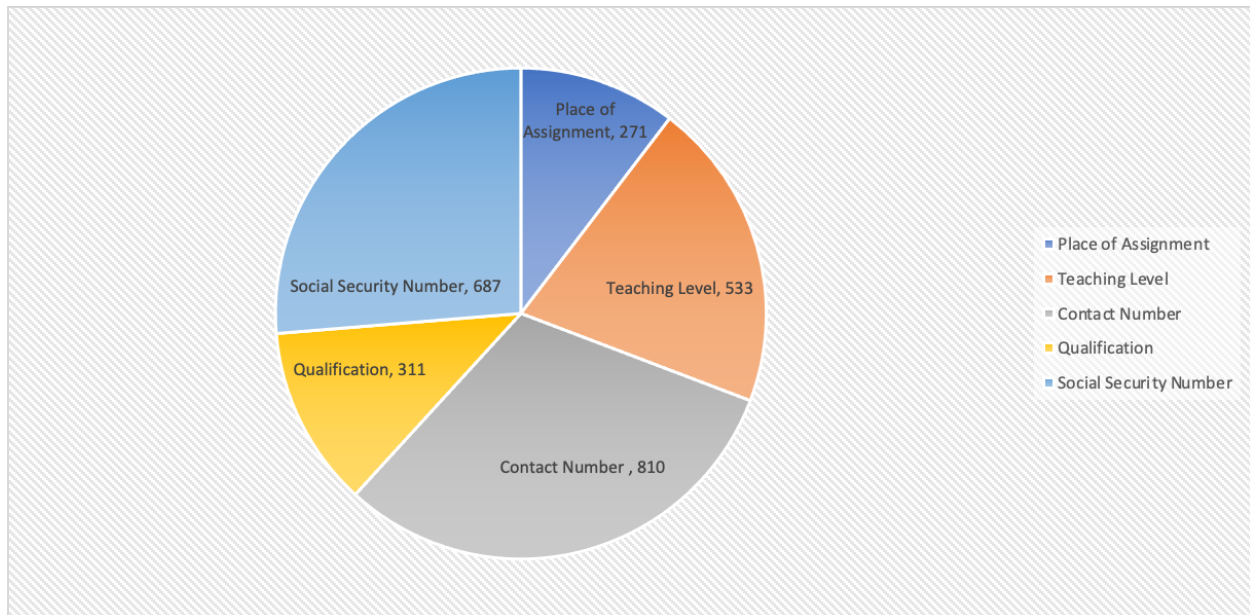

Margibi

Referenced to the current Ministry of Education payroll data, Margibi County contains about 176 Public schools, which accounts for approximately 6.3% of all public schools in Liberia with a total

workforce of about 1,048 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 924, constituting about 88.2% teaching staff and 124 support and administrative staff, which reads about 11.8%.

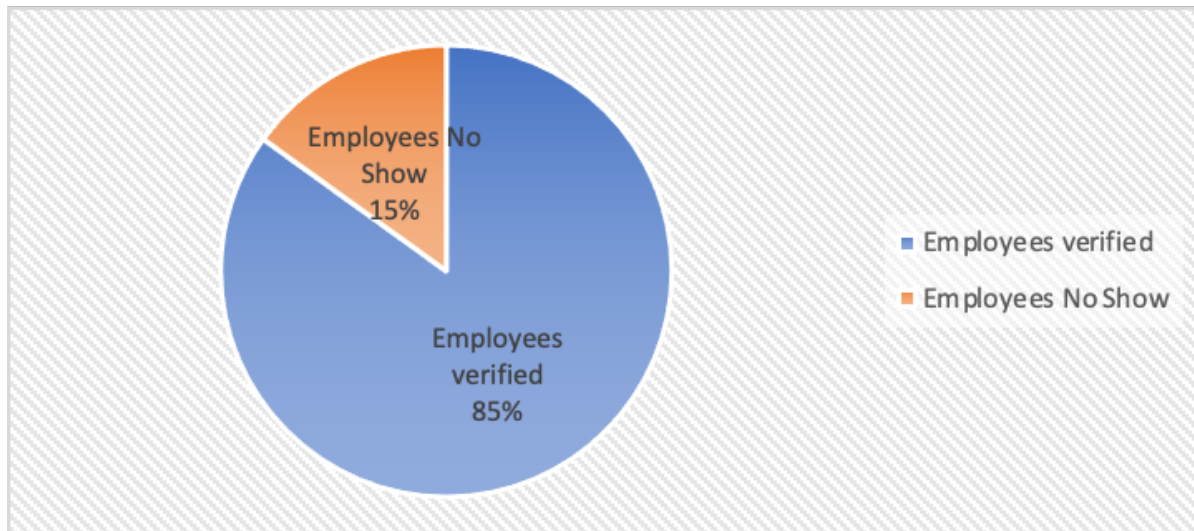

Upon completion of the Margibi County Database vetting, approximately 2,612 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 271 places of assignment (schools and offices), 533 teaching levels, 810 contact numbers added, 311 qualification updated to indicate area of specialization or major, and 687 Social Security Numbers added as well as all NIN dataset updated among others, leading to corrections and reconciliation of MoE personnel records with the CSA-MoE Employee Payroll Registry.

Figure 3.3: Number of changes made to critical fields of database

The Margibi spot-check confirms that out of 1,048 education workers originally listed in the CSA-MoE Employee Payroll Registry, 924 employees, consisting of 799 teaching staff were verified with the above corrections made to the original database records. This leaves a total of 158 employees on the active payroll that were not physically verified due to “No Show”.

Figure 3.4: Number and percentage of Margibi employees verified

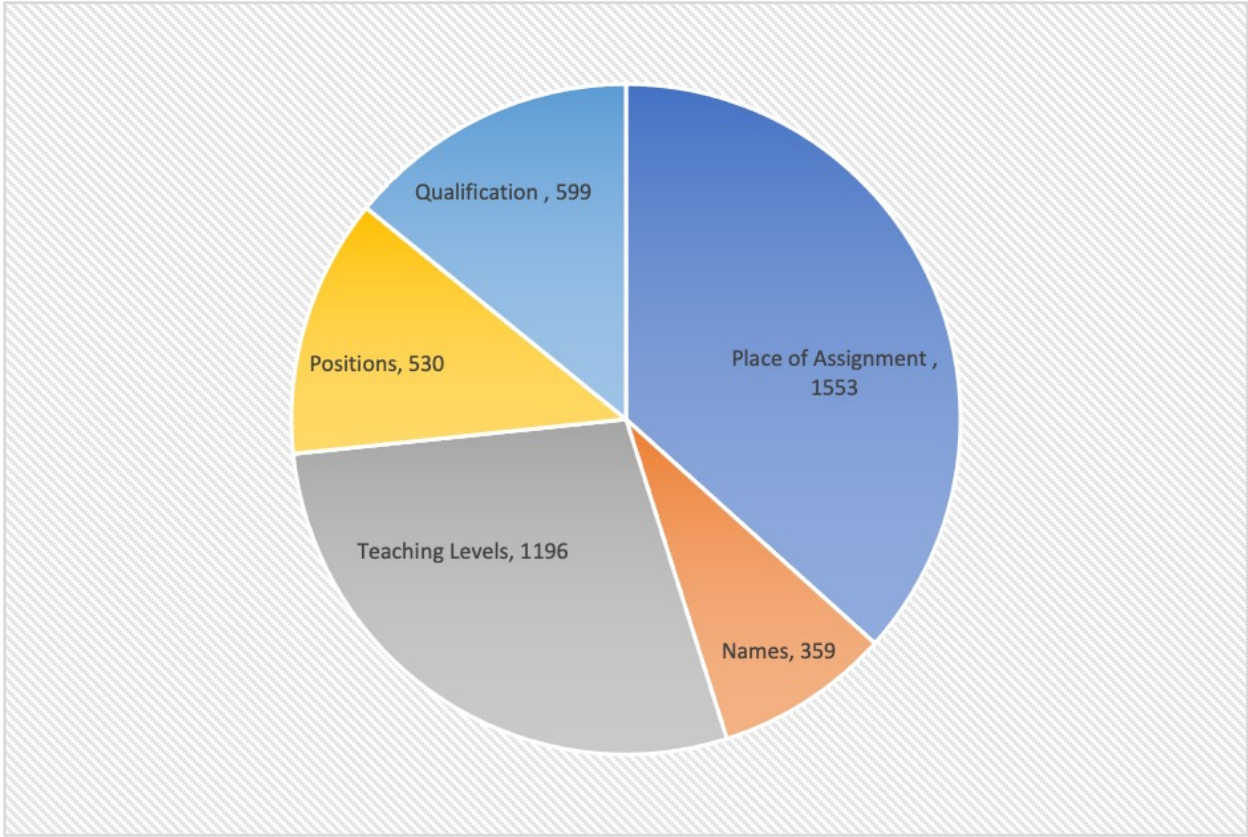

Montserrado County

Referenced to the current Ministry of Education payroll data, Montserrado County contains about 241 Public schools, which accounts for approximately 8.6% of all public schools in Liberia with a total workforce of about 2,551 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 2,272, constituting about 89.1% teaching staff and 279 support and administrative staff, which reads about 10.9%.

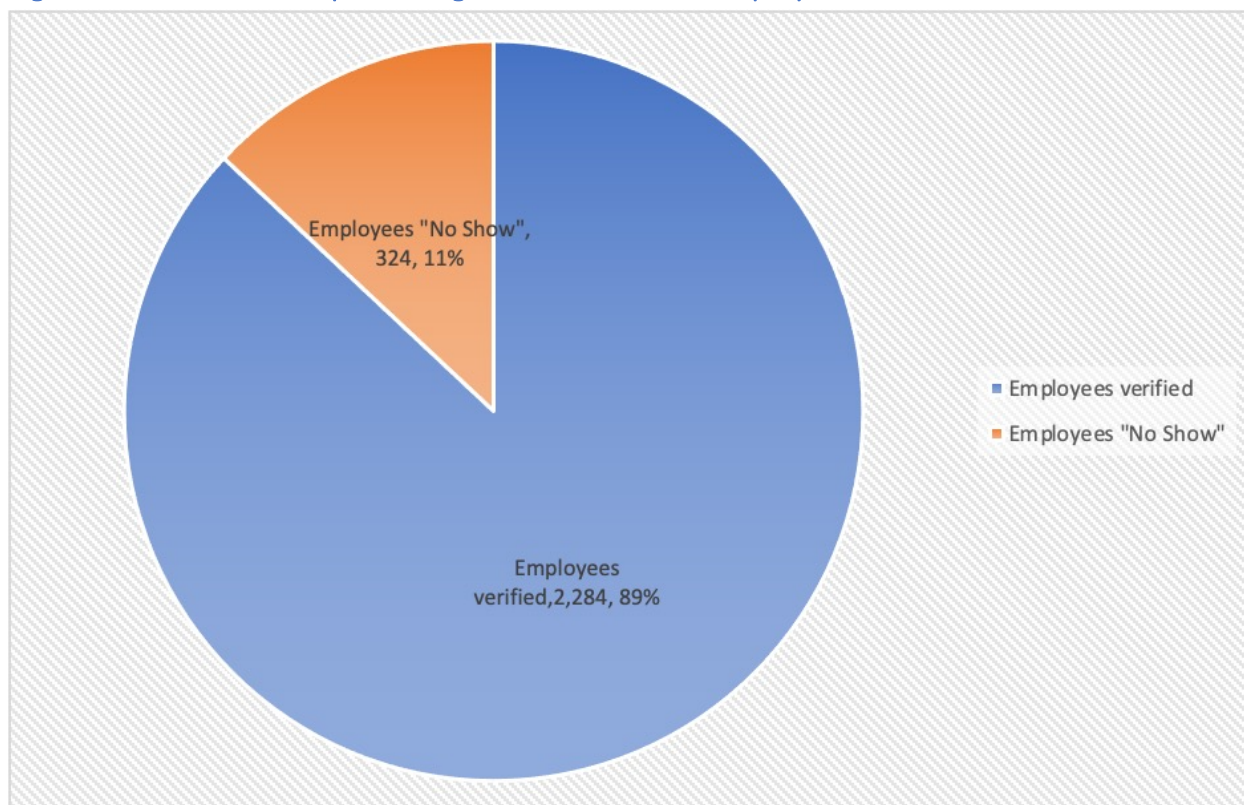

Upon completion of the Montserrado County Database vetting, approximately 4,237 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 1553 places of assignment (school or office), 359 employee names, 1196 teaching levels, 530 positions, and 599 qualifications dataset were updated among others, leading to corrections and reconciliation of the MoE personnel records with the MoE-CSA Employee payroll Registry.

Figure 3.5: Number of changes made to critical fields of database

The Montserrado spot-check confirms that out of 2,551 education workers originally listed in the CSA-MoE Employee Payroll Registry, 2,284 employees accounts, consisting of 1,953 teaching staff were verified with the above corrections made to the original database records. An additional 57 employees (See annex 1.1) previously assigned in different counties were identified to be have been transferred to Montserrado, resulting to a total of 2,608 employees records. This leaves a total of 324 employees on the active payroll that were not physically verified due to “No Show”.

Figure 3.6: Number and percentage of Montserrado employees verified

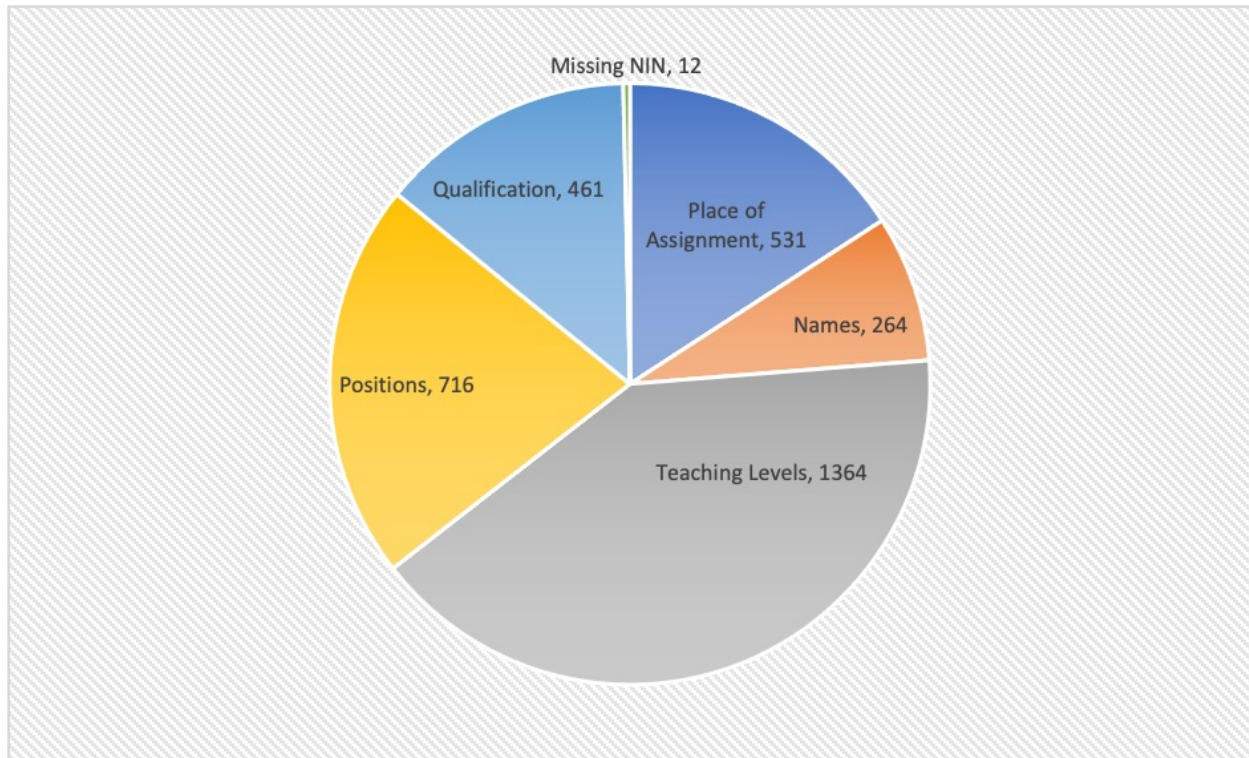

Nimba County

Referenced to the current Ministry of Education payroll data, Nimba County contains about 486 Public schools, which accounts for approximately 17.3% of all public schools in Liberia with a total workforce of about 2,740 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 2,371, constituting about 86.5% teaching staff and 369 support and administrative staff, which reads about 13.5%.

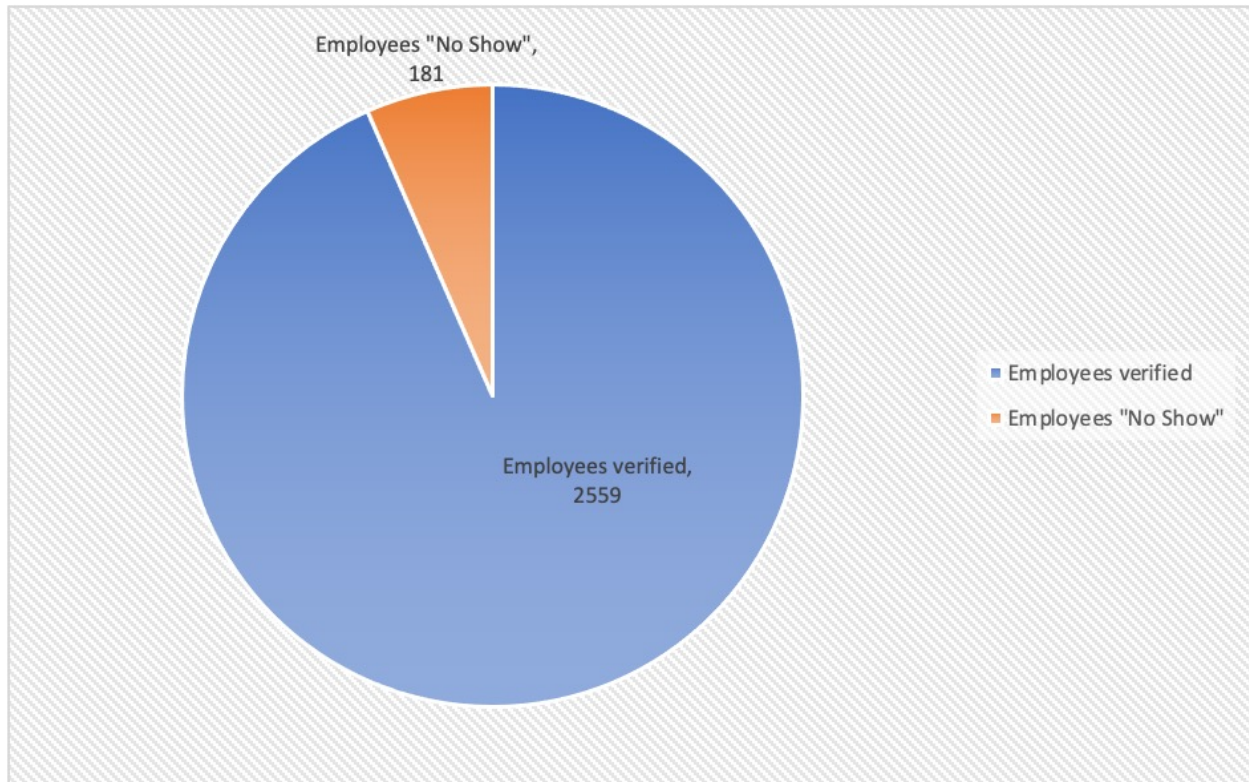

Upon completion of the Nimba County Database vetting, approximately 3,584 individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 531 places of assignment (school or office), 264 employee names, 1,364 teaching levels, 716 positions, 461 qualifications and all missing NIN dataset were updated among others, leading to corrections and reconciliation of the MoE personnel records with the MoE-CSA Employee payroll Registry.

Figure 3.7: Number of changes made to critical fields of database

The Nimba spot-check confirms that out of 2,721 education workers originally listed in the CSA-MoE Employee Payroll Registry, 2,559 employees accounts, consisting of 2,147 teaching staff were verified with the above corrections made to the original database records. An additional 19 employees (see annex 1.2) previously assigned in different counties were identified to have been transferred to Bong, resulting to a total of 2,740 employees records. This leaves a total of 181 employees on the active payroll that were not physically verified due to “No Show”.

Figure 3.8: Number and percentage of Nimba employees verified

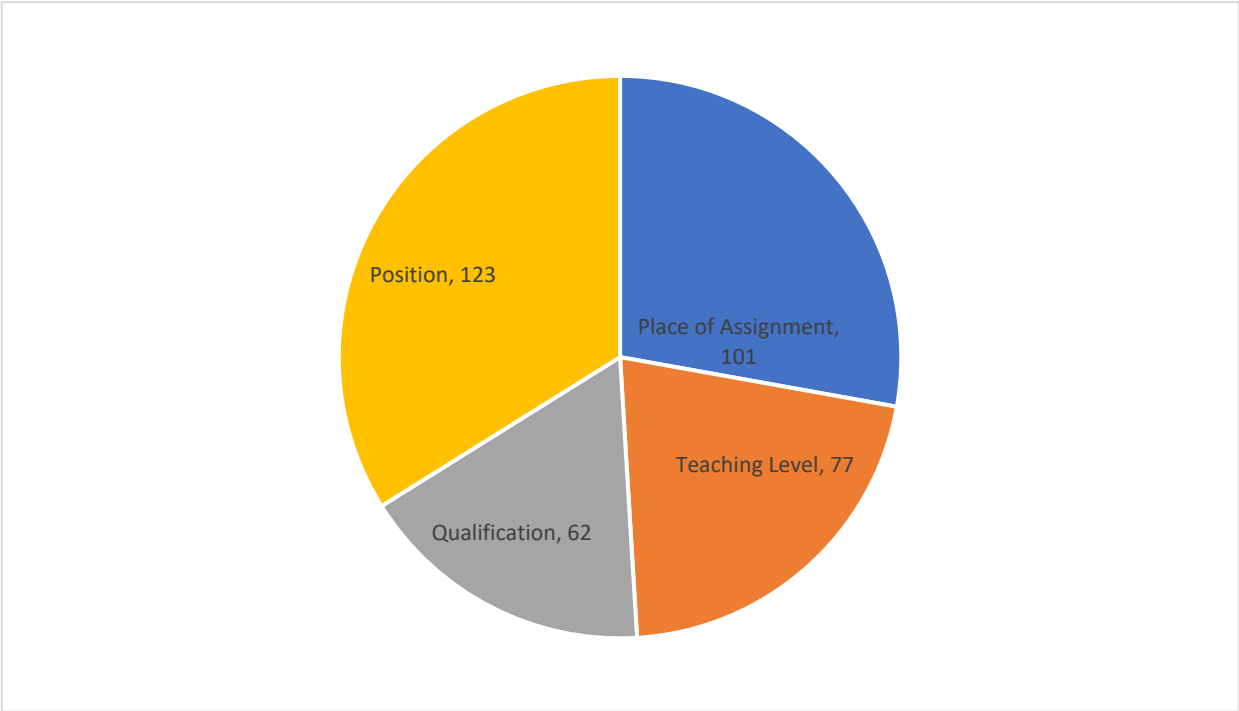

RiverGee County

Referenced to the current Ministry of Education payroll data, RiverGee County contains about 100 Public schools, which accounts for approximately 3.6% of all public schools in Liberia with a total workforce of about 422 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 357, constituting about 84.6% teaching staff and 65 support and administrative staff, which reads about 15.4%.

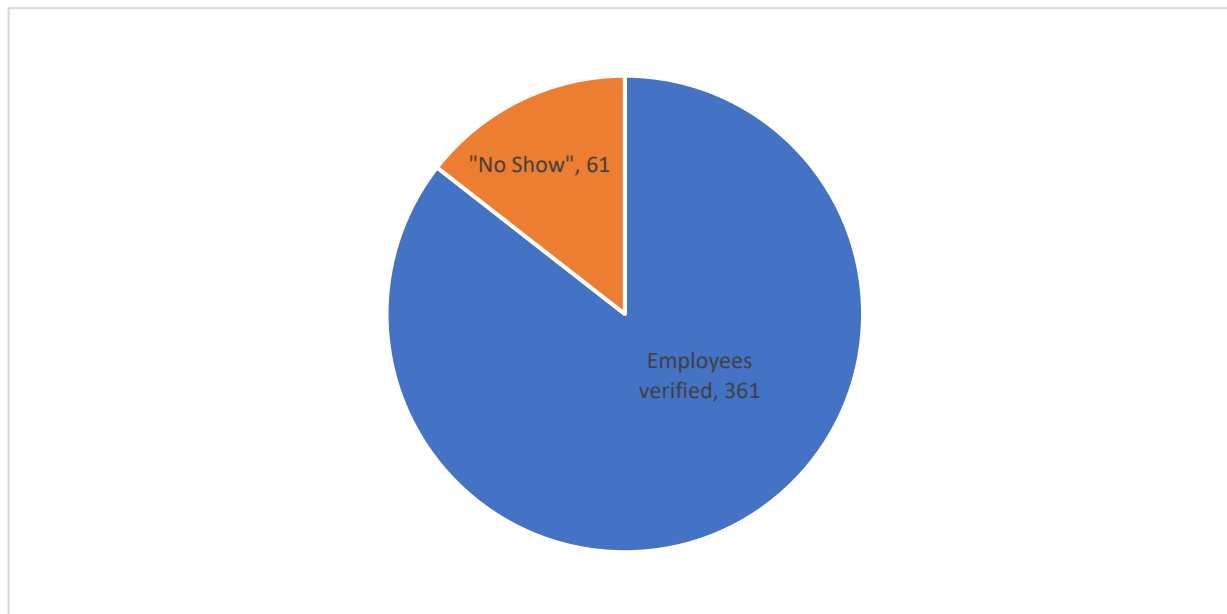

Upon completion of the RiverGee County Database vetting, approximately individual critical fields of the existing CSA-MoE Employee Registry were adjusted to updated records, with specific entries including, 101 places of assignment (school or office), 77 teaching levels, 123 positions, and 62 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 3.9: Number of changes made to critical fields of database

The RiverGee spot-check confirms that out of 422 education workers originally listed in the CSA-MoE Employee Payroll Registry, 361 employees accounts, consisting of 302 teaching staff were verified and corrections made to the original database records. This leaves a total of 61 employees on the active payroll that were not physically verified due to “No Show”.

Figure 4.0: Number and percentage of RiverGee employees verified

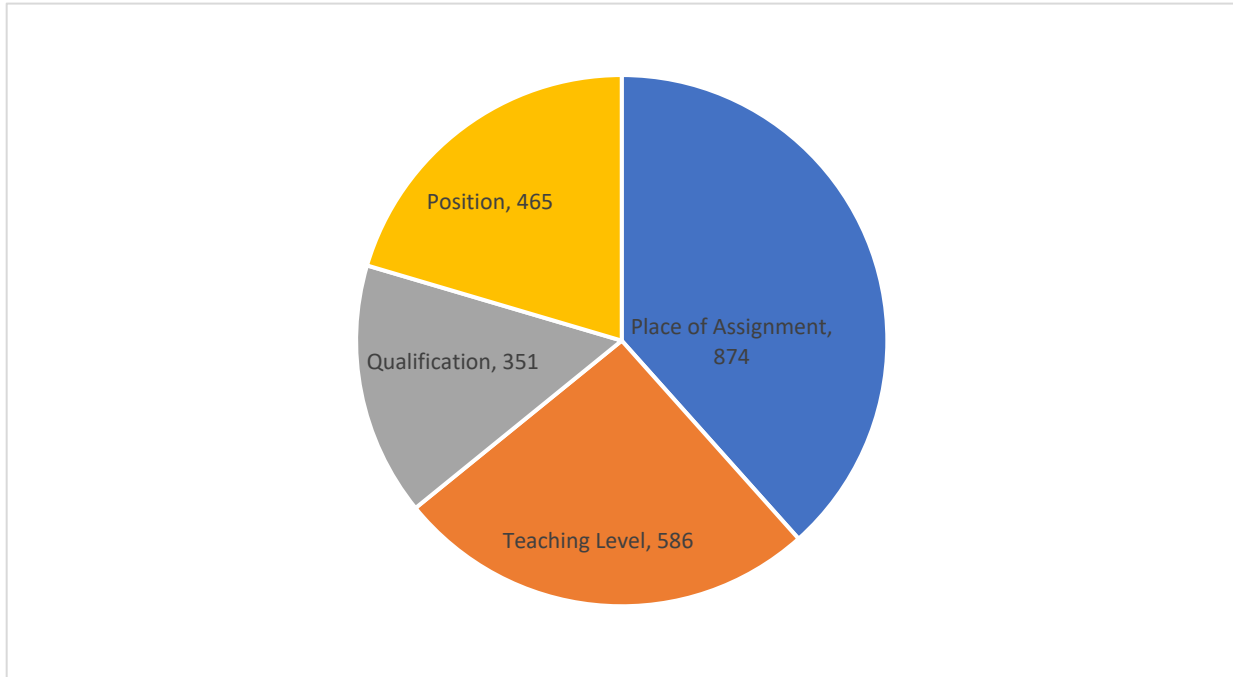

Lofa County

Referenced to the Ministry of Education payroll data as at period under review, Lofa County contains about 298 Public schools, which accounts for approximately 10.6% of all public schools in Liberia with a total workforce of about 1,513 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 1,340, constituting about 88.6% teaching staff and 173 support and administrative staff, which reads about 11.4%.

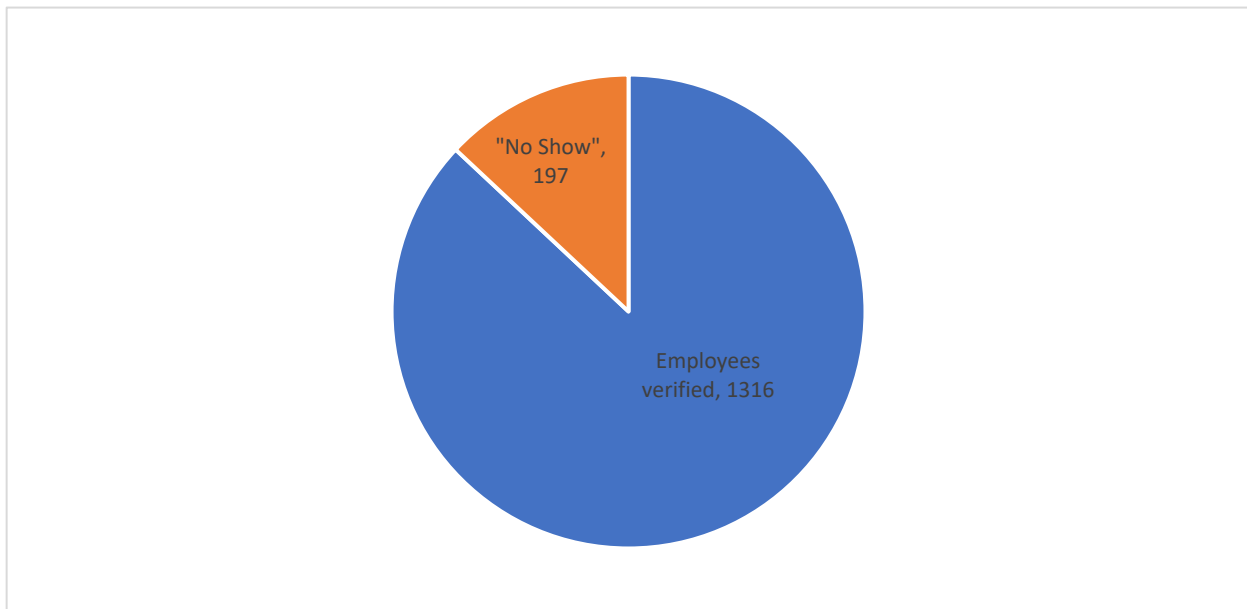

Upon completion of the Lofa County Database vetting, approximately 2,276 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 874 places of assignment (school or office), 586 teaching levels, 465 positions, and 351 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 4.1: Number of changes made to critical fields of database

The Lofa spot-check confirms that out of 1,513 education workers originally listed in the CSA-MoE Employee Payroll Registry, 1316 employees accounts, consisting of 1152 teaching staff were verified and corrections made to the original database records. This leaves a total of 197 employees on the active payroll that were not physically verified due to “No Show”.

Figure 4.2: Number and percentage of Lofa employees verified

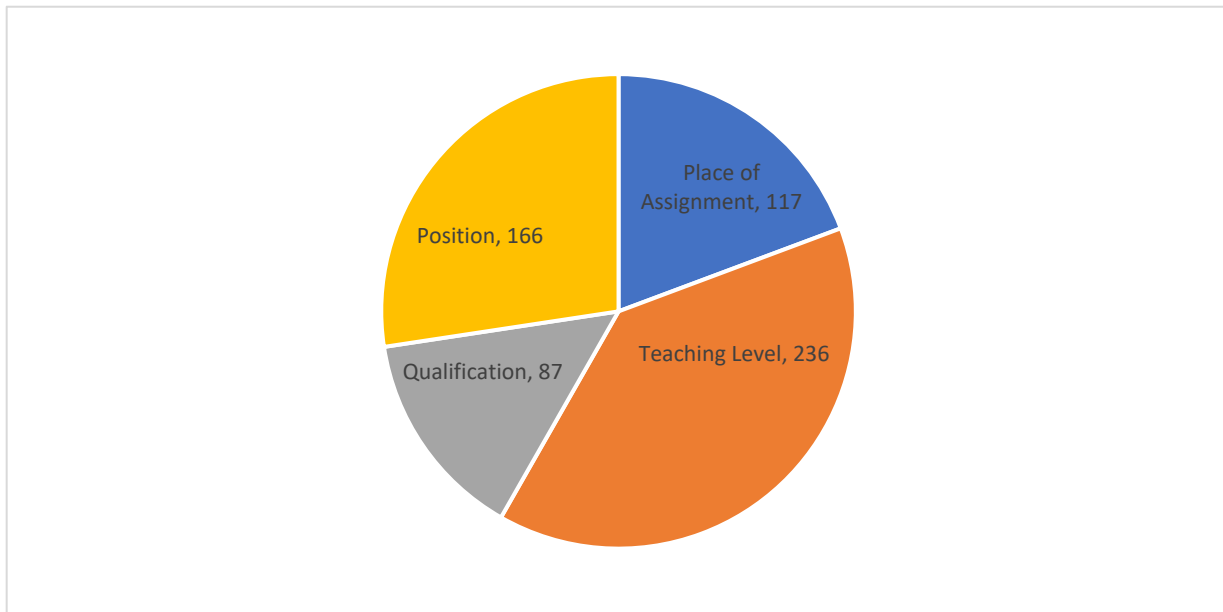

Gbarpolu County

Referenced to the Ministry of Education payroll data as at period under review, Gbarpolu County contains about 110 Public schools, which accounts for approximately 3.9% of all public schools in Liberia with a total workforce of about 497 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 397, constituting about 79.9% teaching staff and 100 support and administrative staff, which reads about 21.1%.

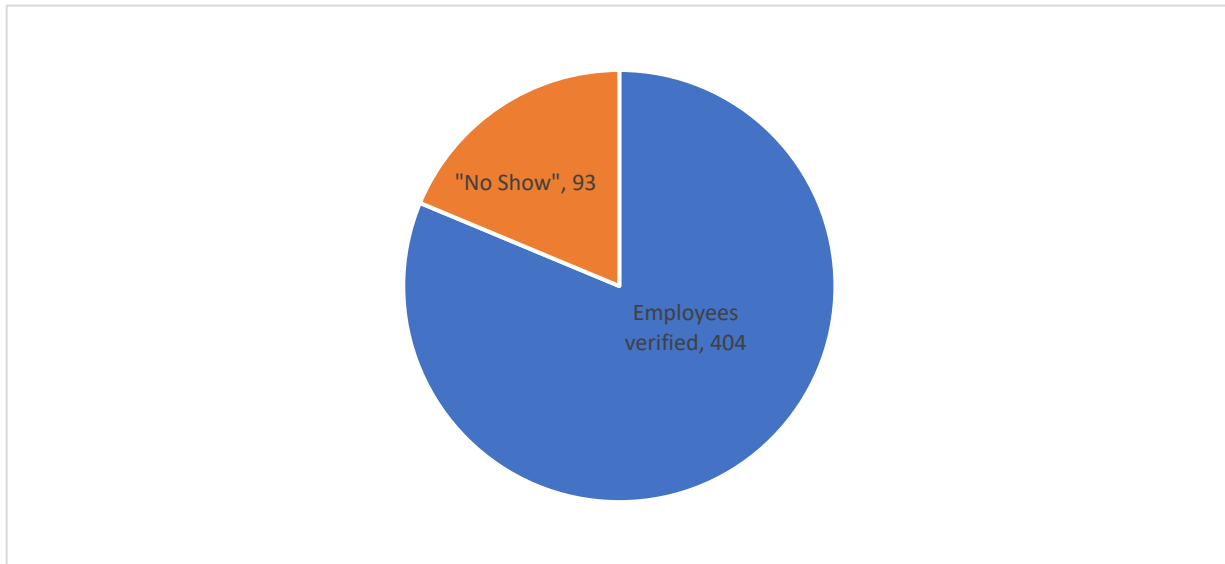

Upon completion of the Gbarpolu County Database vetting, approximately 629 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 117 places of assignment (school or office), 236 teaching levels, 166 positions, and 87 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 4.3: Number of changes made to critical fields of database

The Gbarpolu spot-check confirms that out of 497 education workers originally listed in the CSA-MoE Employee Payroll Registry, 404 employees accounts, consisting of 330 teaching staff were verified and corrections made to the original database records. This leaves a total of 93 employees on the active payroll that were not physically verified due to “No Show”.

Figure 4.4: Number and percentage of Gbarpolu employees verified

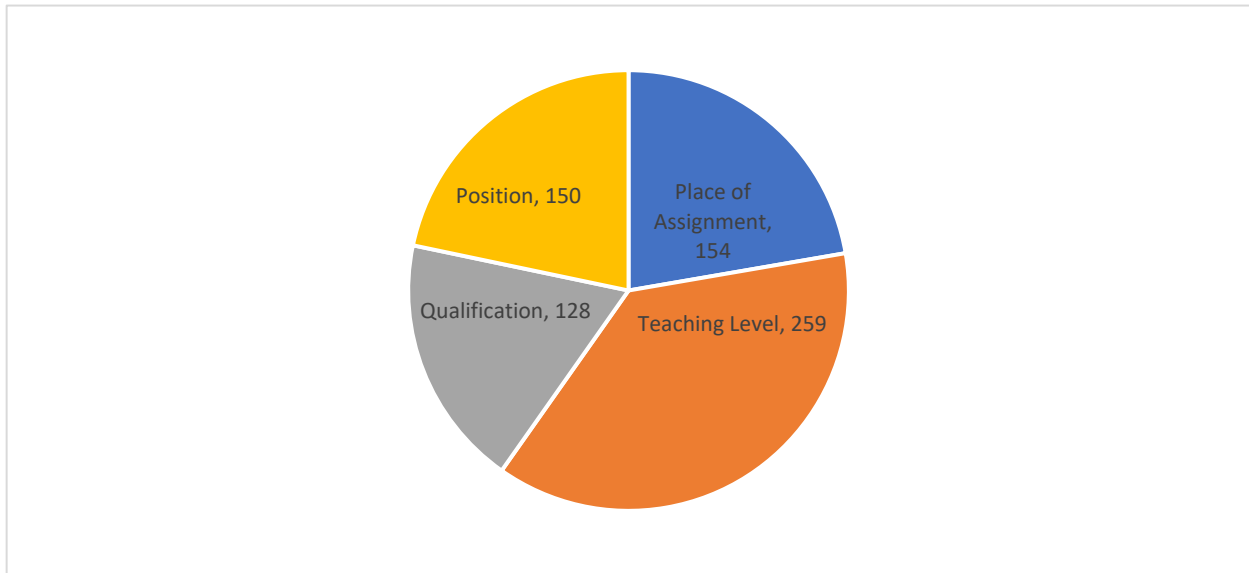

Grand Cape Mount County

Referenced to the Ministry of Education payroll data as at period under review, Grand Cape Mount County contains about 144 Public schools, which accounts for approximately 5.1% of all public schools in Liberia with a total workforce of about 563 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 483, constituting about 85.8% teaching staff and 80 support and administrative staff, which reads about 14.2%.

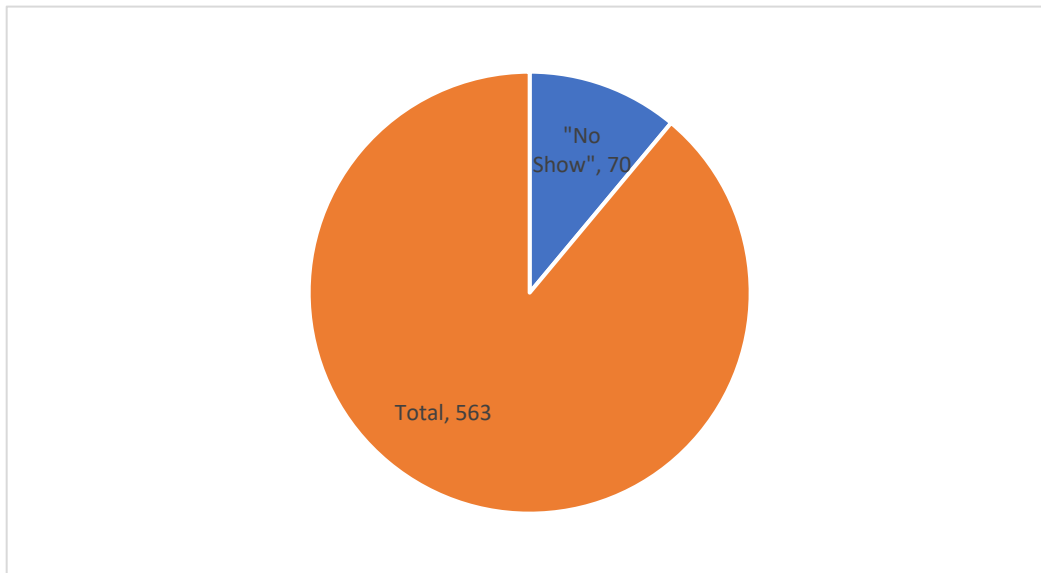

Upon completion of the Grand Cape Mount County Database vetting, approximately 731 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 154 places of assignment (school or office), 259 teaching levels, 150 positions, and 128 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 4.5: Number of changes made to critical fields of database

The Grand Cape Mount spot-check confirms that out of 563 education workers originally listed in the CSA-MoE Employee Payroll Registry, 493 employees accounts, consisting of 426 teaching staff were verified and corrections made to the original database records. This leaves a total of 70 employees on the active payroll that were not physically verified due to “No Show”.

Figure 4.6: Number and percentage of Grand Cape Mount employees verified

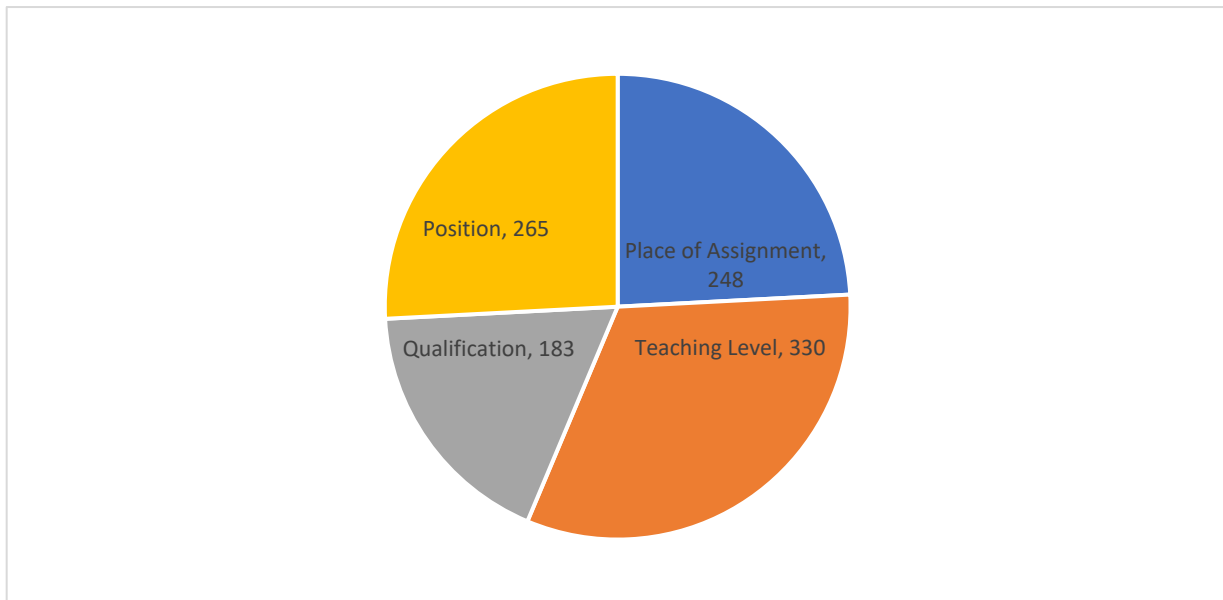

Grand Kru County

Referenced to the Ministry of Education payroll data as at period under review, Grand Kru County contains about 137 Public schools, which accounts for approximately 4.9% of all public schools in Liberia with a total workforce of about 710 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 554, constituting about 78.02%% teaching staff and 156 support and administrative staff, which reads about 21.98%.

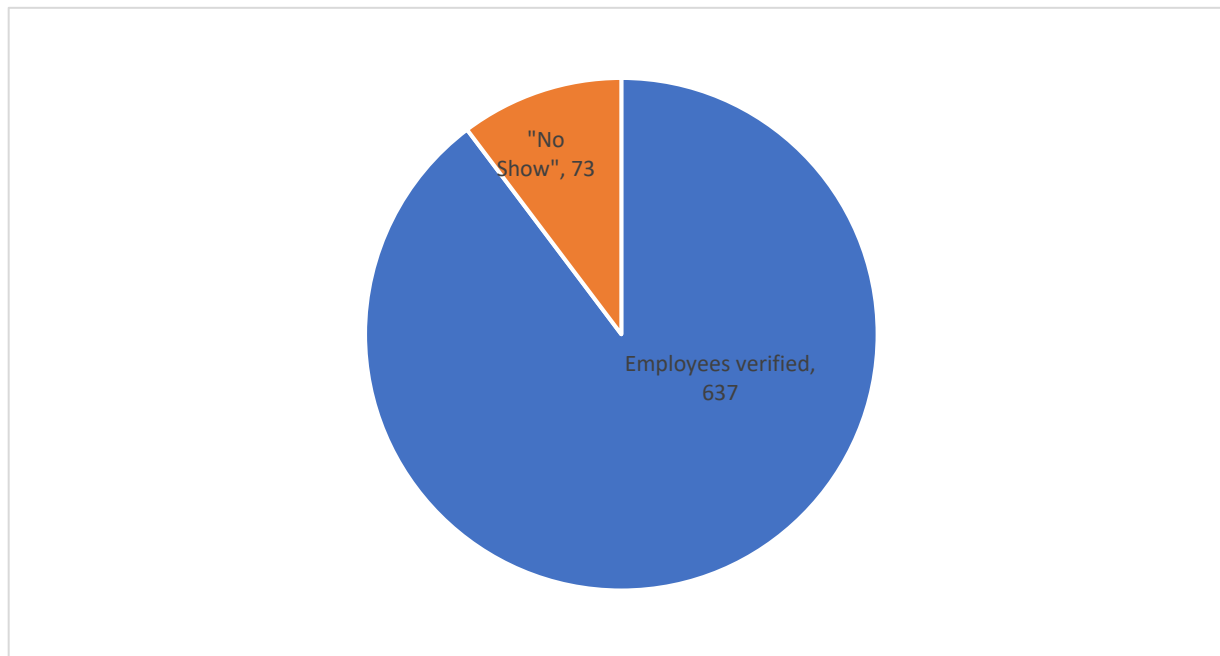

Upon completion of the Grand Kru County Database vetting, approximately 1,026 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 248 places of assignment (school or office), 330 teaching levels, 265 positions, and 183 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 4.7: Number of changes made to critical fields of database

The Grand Kru spot-check confirms that out of 710 education workers originally listed in the CSA-MoE Employee Payroll Registry, 637 employees accounts, consisting of 497 teaching staff were verified and corrections made to the original database records. This leaves a total of 73 employees on the active payroll that were not physically verified due to “No Show”.

Figure 4.8: Number and percentage of Grand Kru employees verified

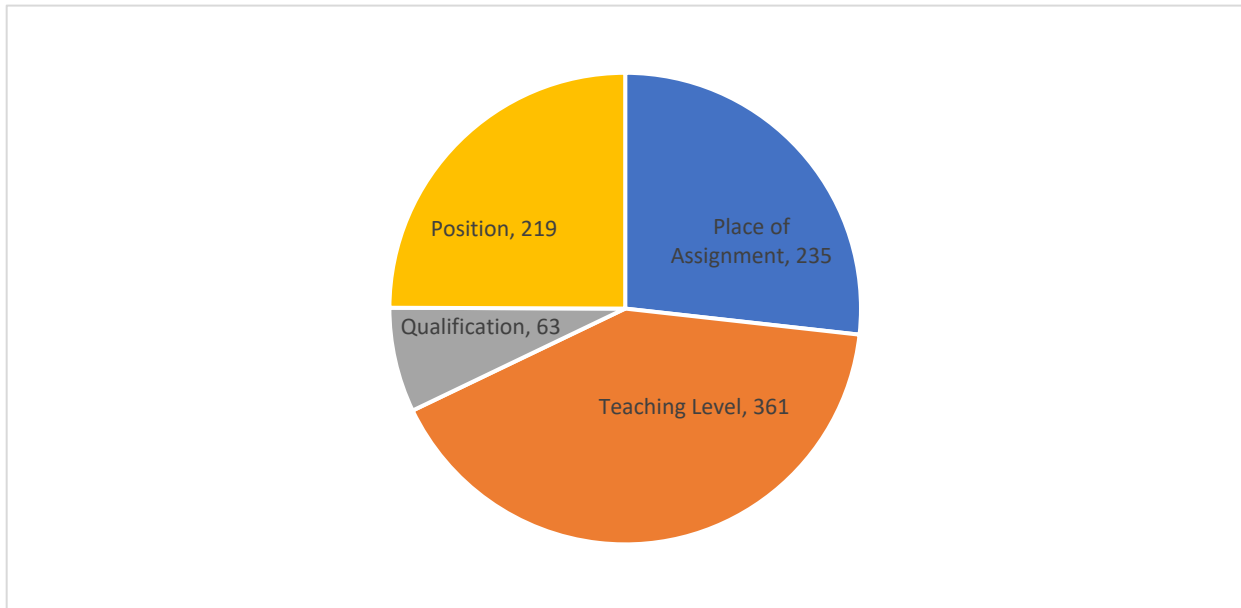

Maryland County

Referenced to the Ministry of Education payroll data as at period under review, Maryland County contains about 153 Public schools, which accounts for approximately 5.4% of all public schools in Liberia with a total workforce of about 754 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 627, constituting about 83.2% teaching staff and 127 support and administrative staff, which reads about 16.8%.

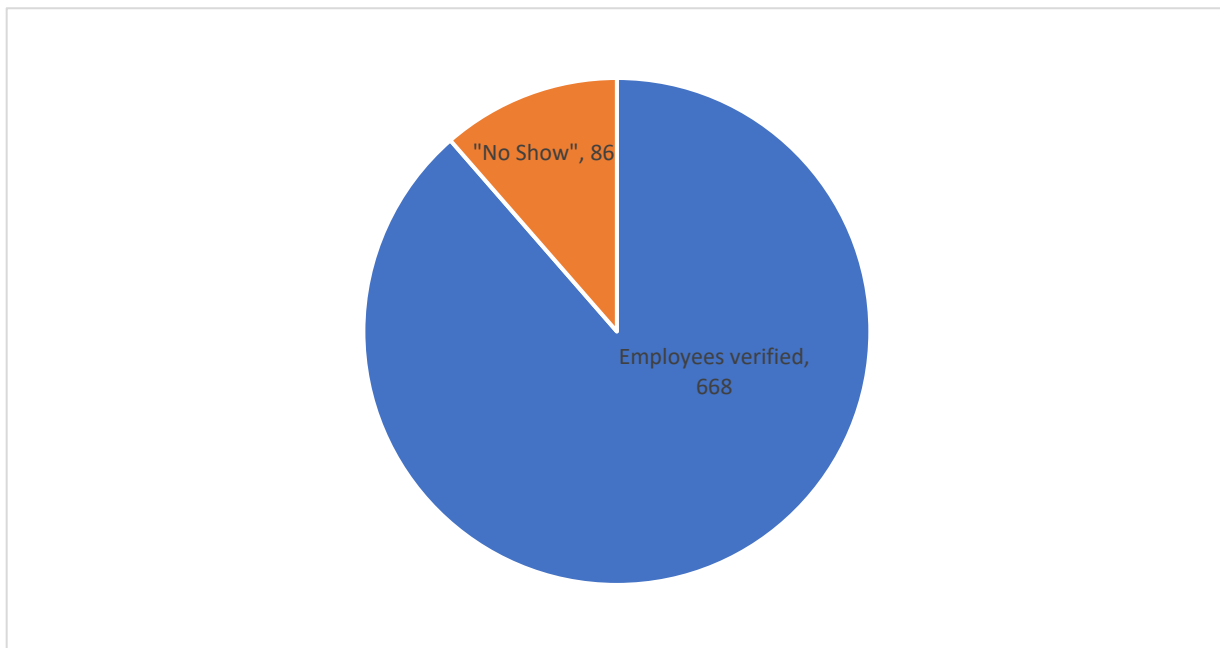

Upon completion of the Maryland County Database vetting, approximately 878 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 235 places of assignment (school or office), 361 teaching levels, 219 positions, and 63 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 4.9: Number of changes made to critical fields of database

The Maryland spot-check confirms that out of 754 education workers originally listed in the CSA-MoE Employee Payroll Registry, 668 employees accounts, consisting of 550 teaching staff were verified and corrections made to the original database records. This leaves a total of 86 employees on the active payroll that were not physically verified due to “No Show”.

Figure 5.0: Number and percentage of Maryland employees verified

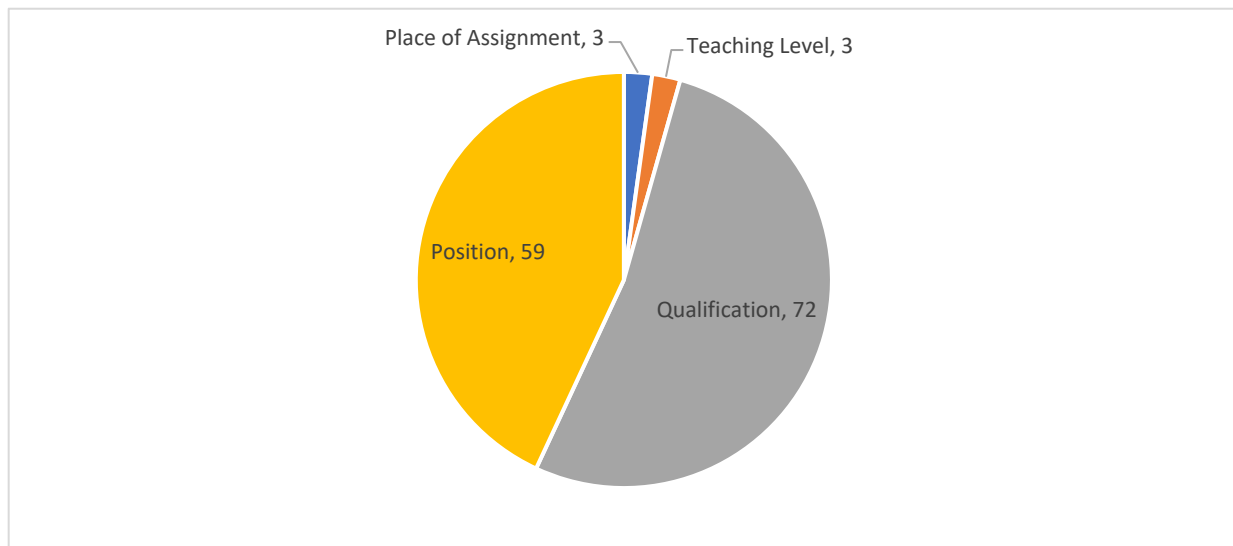

Rivercess County

Referenced to the Ministry of Education payroll data as at period under review, Rivercess County contains about 99 Public schools, which accounts for approximately 3.5% of all public schools in Liberia with a total workforce of about 421 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 357, constituting about 84.8% teaching staff and 64 support and administrative staff, which reads about 15.2%.

Upon completion of the Rivercess County Database vetting, approximately 137 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 3 places of assignment (school or office), 3 teaching levels, 59 positions, and 72 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 5.1: Number of changes made to critical fields of database

The Rivercess spot-check confirms that out of 421 education workers originally listed in the CSA-MoE Employee Payroll Registry, 264 employees accounts, consisting of 218 teaching staff were verified and corrections made to the original database records. This leaves a total of 157 employees on the active payroll that were not physically verified due to “No Show”.

Figure 5.2: Number and percentage of Rivercess employees verified

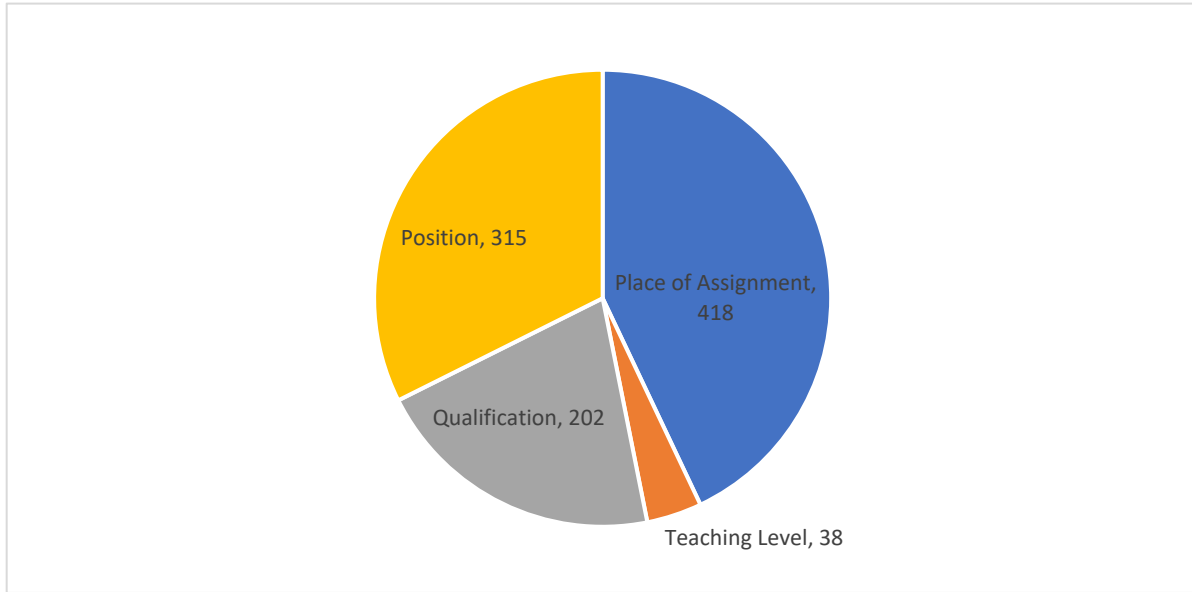

Grand Gedeh County

Referenced to the Ministry of Education payroll data as at period under review, Grand Gedeh County contains about 137 Public schools, which accounts for approximately 4.9% of all public schools in Liberia with a total workforce of about 889 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 704, constituting about 79.2% teaching staff and 185 support and administrative staff, which reads about 20.8%.

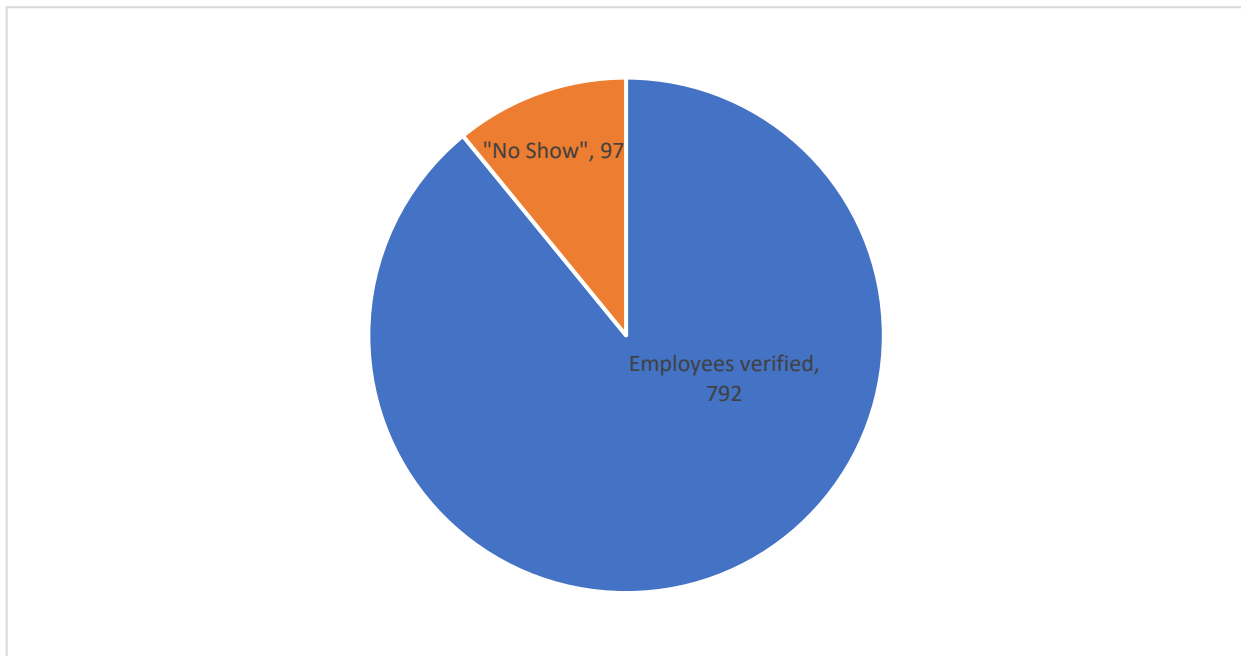

Upon completion of the Grand Gedeh County Database vetting, approximately 973 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 418 places of assignment (school or office), 38 teaching levels, 315 positions, and 202 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 5.3: Number of changes made to critical fields of database

The Grand Gedeh spot-check confirms that out of 889 education workers originally listed in the CSA-MoE Employee Payroll Registry, 792 employees accounts, consisting of 623 teaching staff were verified and corrections made to the original database records. This leaves a total of 97 employees on the active payroll that were not physically verified due to “No Show”.

Figure 5.4: Number and percentage of Grand Gedeh employees verified

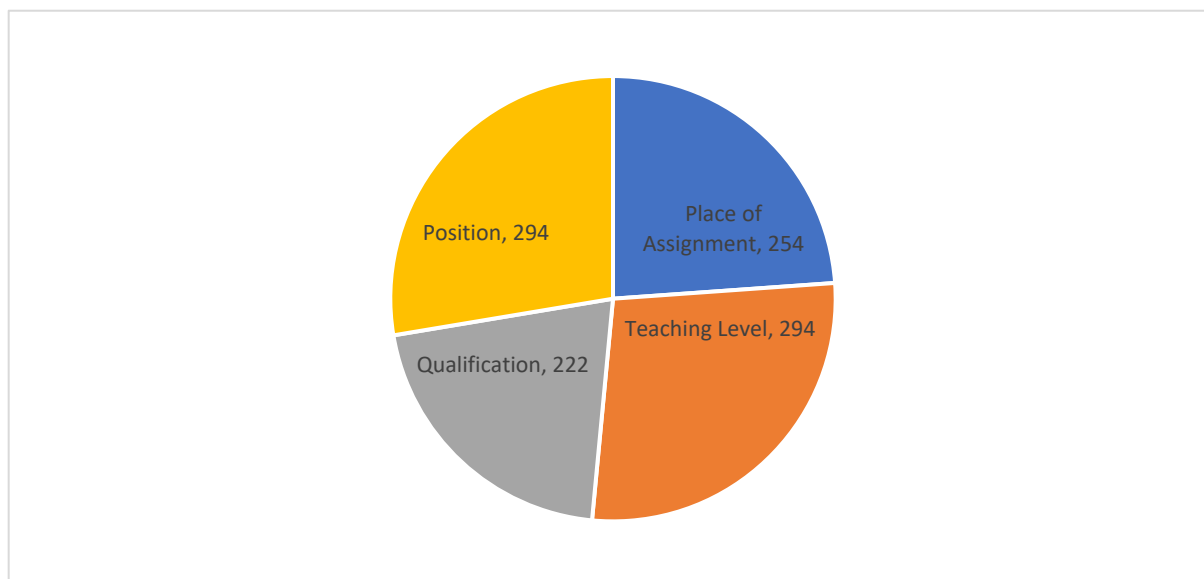

Sinoe County

Referenced to the Ministry of Education payroll data as at period under review, Sinoe County contains about 154 Public schools, which accounts for approximately 5.5% of all public schools in Liberia with a total workforce of about 740 staff (teaching and administrative staff). The total teaching staff (teachers, vice principals and principals) accounts for 580, constituting about 78.4% teaching staff and 160 support and administrative staff, which reads about 21.6%.

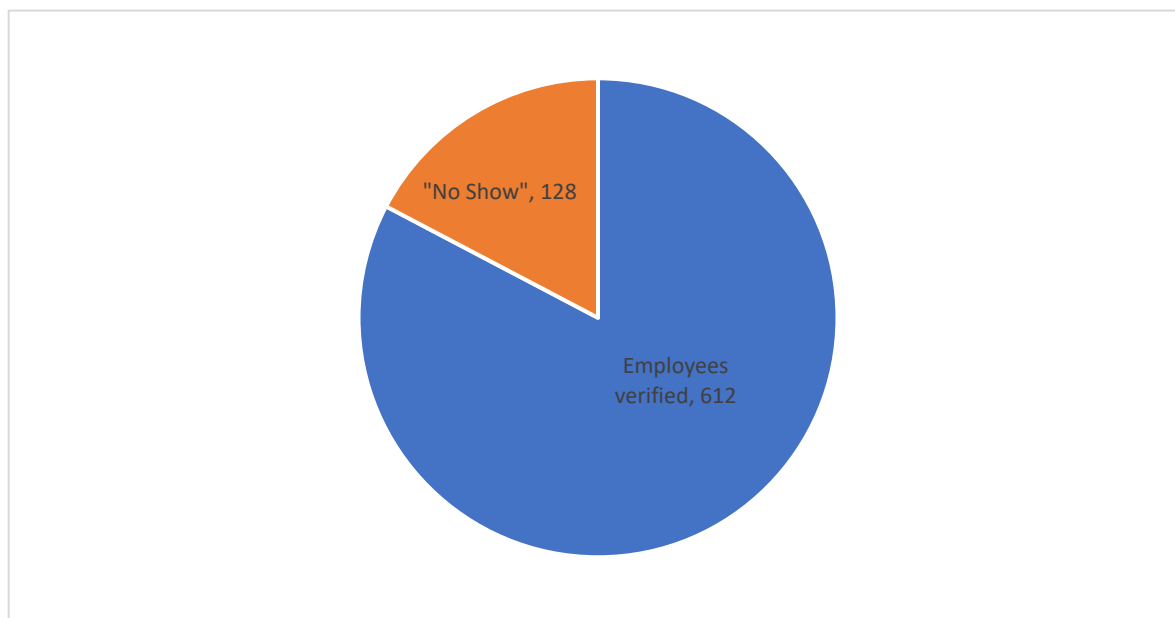

Upon completion of the Sinoe County Database vetting, approximately 1064 individual critical fields of the existing CSA-MoE Employee Registry were adjusted and corrected, with specific entries including, 254 places of assignment (school or office), 294 teaching levels, 294 positions, and 222 qualifications. The update of the critical fields has resulted to the reconciliation and corrections of the MoE Personnel records aligned to the the MoE-CSA Employee payroll Registry.

Figure 5.5: Number of changes made to critical fields of database

The Sinoe spot-check confirms that out of 740 education workers originally listed in the CSA-MoE Employee Payroll Registry, 612 employees accounts, consisting of 475 teaching staff were verified and corrections made to the original database records. This leaves a total of 128 employees on the active payroll that were not physically verified due to “No Show”.

Figure 5.6: Number and percentage of Sinoe employees verified

Results

The Ministry of Education through the spot-check exercise has uncovered several anomalies contained to the Employee Registry which affects the transparency of the payroll. The intervention which is supported under the Public Financial Management Reform Institutional Strengthening Project (PFMRISP) tracked abandonment MoE employees and reveal unexcused consecutive absences of Teaching Staff.

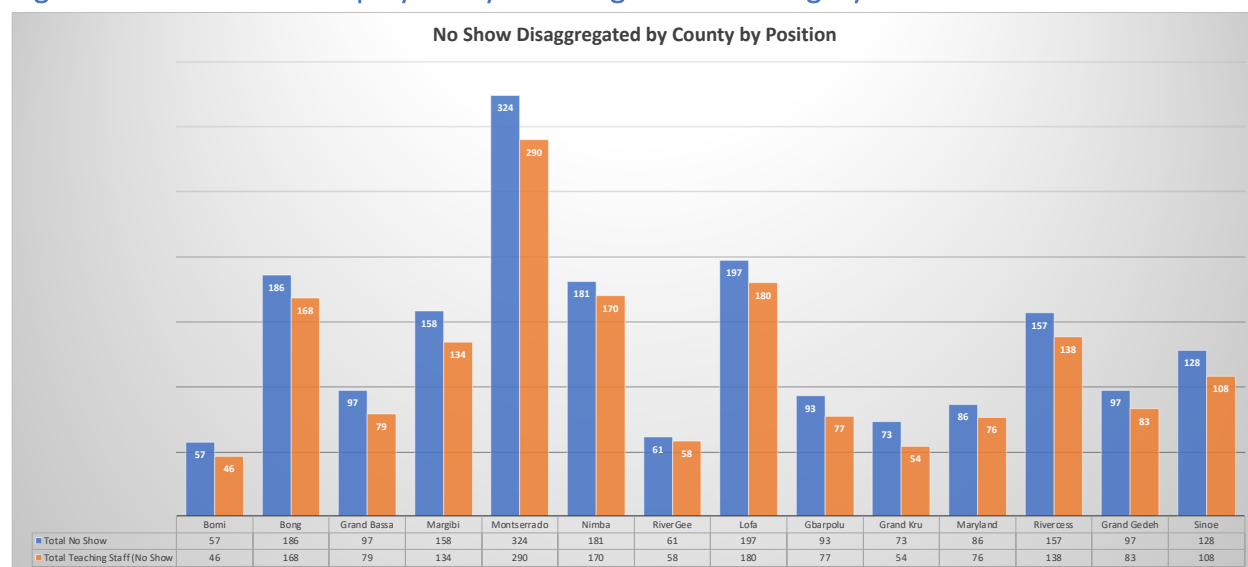

The summary of major findings on abandonment considered as “No Show” that are detailed in the write up and outlined in tables and figures are as follows:

- Bomi County accounted for a total of 57 No Show employees, consisting of 46 Teaching staff;
- Bong County accounted for a total of 186 No Show employees, consisting of 168 Teaching staff
- Grand Bassa County accounted for a total of 97 No Show employees, consisting of 79 Teaching staff;
- Margibi County accounted for a total of 158 No Show employees, consisting of 134 Teaching staff;
- Montserrado County accounted for a total of 324 No Show employees, consisting of 290 Teaching staff;

- Nimba County accounted for a total of 181 No Show employees, consisting of 170 Teaching staff;
- RiverGee County accounted for a total of 61 No Show employees, consisting of 58 Teaching staff;
- Lofa County accounted for a total of 197 No Show employees, consisting of 180 Teaching staff;
- Gbarpolu County accounted for a total of 93 No Show employees, consisting of 77 Teaching staff;
- Grand Kru County accounted for a total of 73 No Show employees, consisting of 54 Teaching staff;
- Grand Cape Mount County accounted for a total of 67 employees, consisting of 58 Teaching staff;
- Maryland County accounted for a total of 86 employees, consisting of 76 Teaching staff;
- Rivercess County accounted for a total of 157 employees, consisting of 138 Teaching staff;
- Grand Gedeh County accounted for a total of 97 employees, consisting of 83 Teaching staff;
- Sinoe County accounted for a total of 128 employees, consisting of 108 Teaching staff.

These findings have reported that the spot-check exercise overall revealed that about 1,895 employees of the Ministry of Education active payroll as at the period under review were not accounted for during the physical verification exercise. This number also consists of 1,661 Teaching staff as seen in figure 1.38 disaggregated by county.

Figure 5.7: “No Show” employees by Teaching Position category

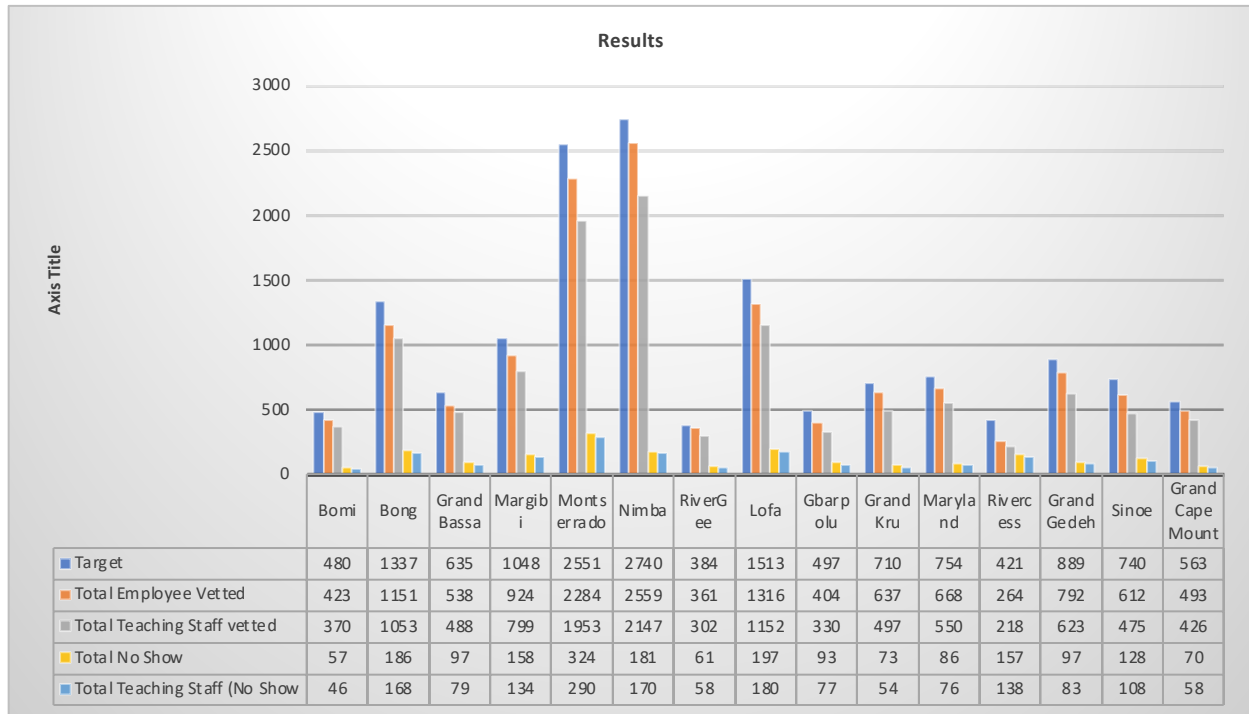

Conclusion

The spot-check has shown the possibility that a staff could be found as “No Show” in one county but same staff may be actively serving in another county. These actions were caused by arbitrary transfers of employees by decentralized As a result, the spot-check findings of No Show is subject to a margin of error 10%+-. This will allow for redress of instance mentioned above, hence the reason for recommendation as stated below. As a way to ensure that fiscal space is not wasted on ghost names/accounts or abandoned employees, all accounts found as No Show are recommended to be placed on salary hold for two (2) months, respectively, while further investigation is conducted or given the employees an opportunity to report themselves. Nevertheless, if the employees on hold for a period of two months do not provide evidence of active service, such employee must be removed from the payroll and replaced with qualified teaching staff.

At the close of the Spot-check and conclusion of the data analysis, a total of 2,813 (100%) Public Schools Data of the MoE Database has been vetted. The total number of schools targeted about 15,262 employees. At the end of the exercise, a total of 13,428 employees were physically verified through the spot-check accounting for 11,383 Teaching staff. Additionally, results now reads that a total of 1,965 employees which consist of 1,719 Teaching staff were not physically seen and verified during the spot-check exercise (See figure 1:39 for details).

Figure 5.8: Total Number of Employees verified through spot-check by position category
